

FS-Curtis Launches the ECO-Rotary: A Revolutionary Oil-Free Rotary Screw Air Compressor

The newest ECO-Rotary delivers unparalleled efficiency, reliability, and sustainability for diverse industrial applications.

ST. LOUIS, MO, UNITED STATES, January 29, 2025 /EINPresswire.com/ -- FS-Curtis, a trusted leader in compressed air systems for over 170 years, proudly announces the launch of its latest innovation, the ECO-Rotary oil-free rotary screw air compressor.

Engineered to meet the growing demand for efficient and reliable air compression, the ECO-Rotary sets a new benchmark for performance and sustainability in industrial applications.

Designed for Excellence

The ECO-Rotary is tailored to address the diverse needs of industries requiring clean, efficient, and reliable compressed air. Key features include:

- Oil-Free, Dry Air: Ideal for industries where contaminant-free operations are essential.
- Cooler Operating Temperatures: Reduces system wear, prolongs lifespan, and maximizes efficiency.
- Lower Maintenance Costs: Built for reliability with fewer service interruptions and reduced downtime.
- Robust Motor Coupling Air End Design: Ensures exceptional durability and long-lasting performance.
- Broad Range of Power: Available in 20-150 HP to suit a wide array of industrial applications.

Meeting Industry Needs

“Our ECO-Rotary line represents a significant step forward in providing sustainable and efficient solutions to our customers,” said Russell Warner, VP of Sales at FS-Curtis. “With its oil-free design and exceptional energy efficiency, the ECO-Rotary helps companies meet their operational goals while supporting environmental sustainability

A Solution for Today's Challenges

With its advanced design and eco-friendly benefits, the ECO-Rotary empowers businesses to optimize operations while reducing maintenance costs and environmental impact. Its versatility makes it a valuable addition to industries ranging from healthcare and food production to electronics and automotive manufacturing.
