

Concrete Repair Mortars Market Size Worth US\$ 6.54 Billion Globally by 2034 at 7.9% CAGR - Report By PMR

Growing funding in infrastructural advancement is driving the market demand.

NEW YORK CITY, NY, UNITED STATES, January 29, 2025 /EINPresswire.com/ -- Our concrete repair mortars market report has been prepared using advanced methodologies and research techniques to help businesses make strategic business decisions.

Concrete repair mortars market is a specialized construction material used for repairing damaged concrete structures. The market is projected to reach a value of US\$ 6.54 billion by 2034, growing at a CAGR of 7.9% from 2025 to 2034. This growth is driven by increasing infrastructure development and the need for durable repair solutions. The market is segmented by region, with North America and Europe showing significant growth. Key players in the market include various construction material manufacturers. The report provides a comprehensive analysis of the market, including a list of key players and their market share.

Concrete Repair Mortars Market

Concrete repair mortars market:

Concrete repair mortar is a substance utilized to mend and replace concrete structures that have undergone damage, worsening, and wear over time. This kind of mortar is outlined to replace structural probity and enhance the aspect of impacted concrete surfaces.

It is utilized to suffuse and secure cracks, fissures, and holes in concrete structures. This assist prohibits the penetration of water, abrasive chemicals, and other elements that can cause

They efficaciously suffuse cracks and deformities, improving structural probity and durability.”

Polaris Market Research

additional damage. Growing demand for domestic and commercial buildings is escalating the disbursement of construction projects, pushing the concrete repair mortars market demand.

Escalating Ecological Concerns: Escalating ecological

worries are pushing the market growth as there is a

requirement for green construction practices. Administrative influence and elevated consciousness of ecological influences are encouraging the demand for green solutions such as low-discharge commodities and waste-decreasing technologies, boosting the demand for concrete repair mortars market growth.

Growing Industrialization and Urbanization: Industrialization and urbanization push the profound requirement for resistant repair solutions to sustain and mend prevailing structures as cities evolve and industrial spaces expand.

Massive Funding by Governments: Governments globally are funding massively in infrastructure advancement especially in enhancing and sustaining roads. Further, through associations with private firms, governments are speeding up their infrastructure's upper hand, causing growing demand for specific concrete repair solutions.

Key players in the concrete repair mortars market include:

- Adhesive Technology Corporation
- Ardex Group
- Cemex S.A.B. de C.V.
- Flexcrete
- Fosroc International Ltd.
- Mapei S.p.A.
- Pidilite Industries Ltd
- Remmers Baustofftechnik GmbH
- Saint-Gobain
- Sika AG

Market Segmentation:

- The concrete repair mortars market segmentation is based on mortar type, method of application, end use, and region.

- By mortar type analysis, the polymer-modified cementitious segment held the largest market share. This is due to its premiere performance attributes, such as improved longevity, flexibility, and aversion to ecological factors.
- By end-use analysis, the roads and infrastructure segment is poised to register a significant CAGR. This is due to the escalating public framework advancement, particularly in surfacing nations.

□□□□□□□□ □□□□□□□□:

The research report covers all the major regions and sub-regions of the concrete repair mortars market. The study provides market insights into North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa.

Asia Pacific: Asia Pacific accounted for the largest market share. This is primarily because of population growth, urbanization, and infrastructure augmentation. Also, the high construction ventures, technological progressions, and surging disposable incomes are all factors pushing the market growth in the region.

North America: North America is anticipated to witness the fastest CAGR from 2025 to 2034. The region's entrenched framework needs continuous sustenance and mending, especially with deteriorating bridges, highways, and buildings.

□□□□:

How much is the concrete repair mortars market?

The market size was valued at USD 3.07 billion in 2024 and is projected to grow to USD 6.54 billion by 2034.

What are the segments covered in the concrete repair mortars market?

The segments covered in the market are mortar type, method of application, end-use, and region.

Based on mortar type, which segment dominated the market revenue share in 2024?

The polymer-modified cementitious segment dominated the market in 2024.

What is the growth rate of the market?

The global market is projected to register a CAGR of 7.9% during the forecast period.

Polaris Market Research is a global market research and consulting company. The company specializes in providing exceptional market intelligence and in-depth business research services for PMR's clientele spread across different enterprises. We at Polaris are obliged to serve PMR's diverse customer base present across the industries of healthcare, technology, semiconductors, and chemicals among various other industries present around the world. We strive to provide PMR's customers with updated information on innovative technologies, high-growth markets, emerging business environments, and the latest business-centric applications, thereby helping them always to make informed decisions and leverage new opportunities. Adept with a highly competent, experienced, and extremely qualified team of experts comprising SMEs, analysts, and consultants, we at Polaris endeavor to deliver value-added business solutions to PMR's customers.
