

R & R Swimming Pools Introduces Eco-Friendly Designs to Central Florida Backyards

R & R Swimming Pools introduces eco-friendly designs with energy-saving features, water conservation solutions, and sustainable materials for Central Florida.

LAKE COUNTY, FL, UNITED STATES, January 29, 2025 /EINPresswire.com/ -- As sustainability becomes a growing priority for homeowners, R & R Swimming Pools, [a leading pool builder in Central Florida since 1985](#), has introduced a new range of eco-friendly pool designs. These energy-efficient and water-saving solutions help homeowners enjoy a luxurious backyard experience while reducing environmental impact.

Designed to offer a balance of beauty, efficiency, and durability, R & R Swimming Pools' new eco-conscious designs incorporate:

“

Our mission is to create pools that offer a luxurious experience while reducing energy use, water waste, and maintenance, making sustainability effortless for homeowners.”

Devin Burch

- High-Efficiency Filtration Systems – Advanced low-energy filters and variable-speed pumps help cut electricity use.
- Sustainable Pool Materials – Durable finishes that require less maintenance and fewer chemicals.
- Water Conservation Features – Smart circulation systems, evaporation-reducing covers, and advanced technology to minimize water loss.
- LED Lighting & Solar Heating – Energy-efficient LED lights and optional solar heating systems for lower energy

costs.

Enhancing Outdoor Living While Reducing Costs

These environmentally friendly pools are designed to lower maintenance expenses, helping homeowners reduce water, electricity, and chemical use. Fiberglass pool options, known for their smooth surfaces and non-porous structure, naturally prevent algae buildup, requiring less cleaning and fewer chemicals.

“Our mission is to offer pool designs that not only look great but also support energy efficiency and water conservation,” said a spokesperson for R & R Swimming Pools. “With these innovations, we’re helping Central Florida homeowners enjoy their pools while making an environmentally responsible choice.”
