

Hemphill, LLC Introduces the Hemphill Zeno™ Solar Generator: A Reliable Power Solution for Outages and Gaps

Hemphill, LLC announces the launch of the Hemphill Zeno™ Solar Generator, a cutting-edge addition to its energy storage product line.

TULSA, OK, UNITED STATES, January 29, 2025 /EINPresswire.com/ -- Hemphill, LLC, a [leading tower site developer](#) and provider of innovative solar solutions, is excited to announce the launch of [the Hemphill Zeno™ Solar Generator](#), a cutting-edge addition to its energy storage product line.

The Hemphill Zeno™ Solar Generator is a portable and robust energy solution designed to address critical needs for emergency response and backup power in the field. Equipped with Wi-Fi/GPRS monitoring systems as standard and offering configurable MODBUS communications, the Zeno is a versatile option for various applications. Its standard mounting hardware allows seamless integration

“

Zeno™ is a complete, customizable solar-powered generator that delivers the power you need for lighting, security, climate-controlled 24V rack space, and more.”

Scott Hemphill, Chief Technology Officer at Hemphill, LLC

Hemphill Zeno™ Solar Generator: A Reliable Power Solution for Outages and Gaps

with poles supporting small telecom dishes, small wind turbines (up to 1kW), and self-powered solar security lights. Additionally, identical Zeno units can be connected in parallel or daisy-chained for even greater power reliability.

The Hemphill Zeno™ Solar Panels are tailored to meet site-specific needs. Key features include:

- 120/240 VAC capability
- Battery capacity of 40 kWh
- Plug-and-play installation

- Continuous output power of 12 kW

Hemphill ensures a smooth transition by delivering and installing the Zeno directly, enabling customers to achieve a faster return on investment.
