Vintage at Spanish Springs is an innovative affordable apartment community consisting of 257 units, designed specifically for seniors aged 55 and older. This development provides a contemporary, energy-efficient living environment with a variety of social activities for residents. What makes this community unique is its affordability for lower-income seniors (at or below 60% of the Area Median Income). The care taken in designing the community, from the building and floor plans to amenities and services, addresses the housing needs of lower-

income senior citizens in Northern Nevada. The project commenced in 2022 and officially opened on November 1, 2024, with the support of Green Street Developers.
