

A' Yacht and Marine Vessels Design Award Announces Final Call for Entries with February 28 Deadline

Global Recognition Opportunity for Outstanding Yacht and Marine Vessel Design Through Prestigious A' Design Award Competition

COMO, CO, ITALY, January 30, 2025 /EINPresswire.com/ -- The A' [Yacht](#) and Marine Vessels [Design Award](#), a highly regarded international design competition established in 2008, has announced the final call for entries for its 2024-2025 competition period. The award program aims to recognize excellence in yacht design, naval architecture, and marine vessel innovation across multiple categories. The competition represents a significant platform for showcasing outstanding achievements in the marine design sector, with entries being accepted until February 28, 2025.

The A' Yacht and Marine Vessels Design Award serves as a catalyst for advancing innovation and excellence in marine vessel design. Notable past laureates include Alperen Aslan for the innovative Ursa Catamaran Yacht and Baz Yacht Design for the sophisticated MS Andiamo 44 m Motorsailer, demonstrating the competition's role in highlighting designs that combine functionality with aesthetic excellence. The award provides a platform for recognizing designs that enhance maritime experiences while promoting sustainable and innovative solutions in the marine industry.

The competition encompasses various categories including yacht design, sailboat design, motor yacht design, luxury yacht design, and commercial vessel design. Entries are open to individuals, teams, and companies worldwide, with works created within the past decade eligible for consideration. Participants must submit high-resolution images capturing their vessel's elegance, detailed specifications, and comprehensive documentation demonstrating innovation and craftsmanship. The late submission period remains active until February 28, 2025, with results to be announced on May 1st, 2025.

Entries undergo evaluation through a blind peer-review process by an international jury panel comprising academics, yacht industry professionals, journalists, and entrepreneurs. The assessment criteria include innovation, sustainability, technology integration, comfort, safety measures, aesthetic appeal, and structural integrity. This comprehensive evaluation ensures a fair and thorough assessment of each submission's merits.

Winners receive the prestigious A' Design Award Winner Logo license, recognition through international exhibitions, and inclusion in the annual yearbook. Additional benefits include extensive media coverage, PR campaign support, and invitation to the exclusive gala-night ceremony at Lake Como, Italy. The award provides winners with valuable exposure to global markets and networking opportunities within the marine industry.

Good yacht design significantly impacts maritime safety, efficiency, and environmental sustainability. By recognizing excellence in marine vessel design, the award program encourages innovations that enhance navigation experiences while promoting responsible environmental stewardship. This recognition helps advance the industry by highlighting designs that combine functionality, sustainability, and aesthetic excellence.

Yacht designers, naval engineers, marine vessel producers, yacht manufacturers, and marine technology experts are invited to participate in this prestigious competition. The program offers an opportunity to gain international recognition and contribute to the advancement of marine vessel design. Interested parties may learn more at:
