

MBD Financials and Indigo Precious Metals Announce Partnership to Introduce Gold-Backed NFTs and RWA Integration

Collaboration Aims to Bridge Blockchain Technology with Precious Metals, Bringing Tokenized Gold to MBD Metropolis and MBD Boulevard

SINGAPORE, SINGAPORE, January 30, 2025 /EINPresswire.com/ -- Singapore, January 20, 2025 – [MBD Financials](#) has entered into an exclusive partnership with [Indigo Precious Metals](#), a global provider of precious metals trading and storage, to introduce gold-backed NFTs and tokenized real-world assets (RWAs) into its digital ecosystem. This initiative integrates blockchain technology with traditional asset ownership, allowing users to engage with gold in new and innovative ways.

The partnership focuses on the introduction of gold-backed NFTs, tokenized gold bars, and digital avatars, enabling a seamless connection between digital environments and physical assets. By leveraging Indigo Precious Metals' expertise in secure metal storage and MBD Financials' blockchain infrastructure, the initiative aims to create an accessible and transparent model for interacting with real-world assets within virtual spaces.

Key Features of the Partnership

- Gold-Backed NFTs: NFTs linked to physical gold bars stored securely by Indigo Precious Metals, with ownership recorded on the blockchain to ensure transparency and security.
- Gold-Backed Avatars: Customizable avatars in MBD Metropolis featuring gold-backed upgrades, introducing a new layer of personalization within digital environments.
- Tokenized Gold Bars: Players and users will have the ability to acquire, trade, and integrate tokenized gold bars into in-game economies and financial systems.

Strategic Vision

"This partnership represents a step forward in bridging physical assets with digital ecosystems," said Fredrik Dahl, Founder & CEO of MBD Financials. "By integrating gold-backed NFTs and real-

world assets, we are expanding the possibilities of asset ownership and interaction within blockchain-driven environments."

Indigo Precious Metals will play a role in ensuring the authenticity and security of the gold-backed assets. The company will oversee the storage of the physical gold linked to NFTs and maintain compliance measures to uphold industry standards.

"Blockchain presents new opportunities for the ownership and exchange of precious metals," said David Mitchell, Managing Director at Indigo Precious Metals. "Through this partnership, we aim to provide a transparent and verifiable framework for integrating gold into the digital economy."

Next Steps

The initial rollout of gold-backed NFTs will be introduced through a test collection, allowing early adopters to experience the integration of real-world assets within MBD Metropolis and MBD Boulevard. The collaboration is expected to pave the way for broader adoption, with future developments focusing on expanding asset accessibility and functionality.
