

# TrustNet's Cybersecurity Experts to Present at RSA Conference 2025

TrustNet CISO Trevor Horwitz and CTO

Mike Kerem will present 'The Dark Side of

SOC 2: Third-Party Risks Hiding in Plain Sight' at RSA Conference 2025.

ATLANTA, GA, UNITED STATES, February 20, 2025 /EINPresswire.com/ -- TrustNet is proud to

announce that CISO Trevor Horwitz and CTO Mike Kerem will present at RSA Conference 2025, the most anticipated cybersecurity event of the year.

We're honored to present at RSA Conference 2025 and expose the often-overlooked risks in third-party vendor security assessments."

*Trevor Horwitz, CISO and  
Founder of TrustNet*

Their session, "[The Dark Side of SOC 2: Third-Party Risks Hiding in Plain Sight](#)," will take place on May 1, 2025, at 9:40 AM PT as part of the Third Party & Vendor Risk Management track.

'Shining a Light on the Hidden Risks of SOC 2'

SOC 2 reports have become a widely accepted standard for third-party risk management.

However, many organizations fail fully grasp its complexities and overlook blind spots, leading to misguided perceptions about their own security posture.

The TrustNet team will reveal critical blind spots in vendor SOC 2 compliance that could leave organizations exposed to hidden security risks. Attendees will gain actionable insights on how to:

- Identify overlooked security gaps in vendor SOC 2 reports
- Strengthen third-party risk assessment processes
- Enhance due diligence beyond surface-level compliance
- Strategically navigate third-party security and compliance

This 50-minute advanced technical session will equip cybersecurity professionals with an in-depth understanding of SOC 2's inherent limitations and practical strategies for mitigating third-party risks more effectively.

'A Continued Commitment to Cybersecurity Leadership'

"We're honored to present at RSA Conference 2025 and expose the often-overlooked risks in third-party vendor security assessments," said Trevor Horwitz, CISO of TrustNet. "We look forward to discussing technical insights and strategies for assessing the reliability of SOC 2 reports and effectively mitigating third-party security risks."

'Join the Conversation at RSA Conference 2025'

We strongly encourage cybersecurity professionals, risk managers, and compliance leaders attending RSA Conference 2025 to take advantage of this crucial learning opportunity.

- Session Title: The Dark Side of SOC 2: Third-Party Risks Hiding in Plain Sight
- Session Track: Third Party & Vendor Risk Management
- Date & Time: May 1, 2025, 9:40 AM PT
- Session Code: TPV1-R02
- Session Length: 50 minutes
- Classification: Advanced - Technical
