

Healthcare CRM Market to Hit \$36.7 Billion by 2030 | Key Drivers & Trends

The healthcare customer relationship management market is segmented into component, deployment model, application, and region.

PORTLAND, OR, UNITED STATES, January 30, 2025 /EINPresswire.com/ -- According to a new report published by Allied Market Research, titled, "[healthcare CRM market](#) by component, application, deployment model, end user, and region: Global Opportunity Analysis and Industry

Forecast, 2021–2030," global healthcare CRM market size was valued at \$9.7 Billion in 2020, and is projected to reach \$36.7 Billion by 2030, growing at a CAGR of 14.1% from 2021 to 2030. In 2020, North America region dominated the global healthcare CRM market accounting for 43.5% share of the market.

The growing global geriatric population is driving demand for healthcare CRM solutions, particularly for online appointment scheduling and patient care services, fueling market growth. Additionally, the increasing adoption of new technologies across industries and the need for enhanced customer engagement, support, and health product marketing are key factors propelling the healthcare CRM market.

CRM systems offer businesses valuable insights into customer behavior, enabling project managers to access comprehensive data on a single platform and make informed decisions quickly. The ability to provide a customized dashboard with detailed customer history, status updates, and unresolved service issues further enhances operational efficiency, contributing to the market's expansion.
