

F2OnSite and UPPER Forge Strategic Alliance to Deliver Nationwide Data Center Solutions

Demand for high-performance data centers has surged, F2OnSite and UPPER alliance expands and data center services and solutions Nationwide

DALLAS, TX, UNITED STATES, January 31, 2025 /EINPresswire.com/ --

F2OnSite, a leading provider of onsite IT services, dispatch, staffing and ITO managed solutions, and UPPER, a specialized [data center solutions](#) provider, today announced a strategic alliance designed to enhance service capabilities and expand nationwide data center support. Through this partnership, F2OnSite strengthens its data center offerings, adding [remote monitoring](#) services to its portfolio, while UPPER leverages F2OnSite's vast U.S. and Canadian network to operate on a national scale.

The demand for high-performance data centers has surged, requiring seamless deployment, maintenance, and monitoring to ensure uptime and operational efficiency. Through this collaboration, IT decision-makers, solution architects, and data center operators will have access to a full spectrum of services, including:

- Rack and Stack Services – Complete hardware deployment and setup
- Remote Monitoring & Management – 24/7 surveillance of critical infrastructure
- Break-Fix Support – Rapid response for hardware failures and system issues
- Cabling & Infrastructure Services – Structured cabling, fiber optics, and network optimization
- End-to-End Deployment & Installation – Large-scale project implementation and logistics

With this alliance, F2OnSite now offers a fully integrated suite of data center solutions, ranging from initial architecture and deployment to long-term monitoring and support. For UPPER, this partnership accelerates its ability to provide nationwide coverage, significantly increasing its service reach and response times.

A Strategic Step Forward for Both Companies

"This alliance is a game-changer for both organizations," said Donny Lauderback, President of F2OnSite. "By combining F2OnSite's national reach with UPPER's deep expertise in data center solutions, we're delivering a comprehensive, scalable service model that meets the evolving needs of IT leaders managing complex infrastructures. This partnership enables us to provide not only best-in-class deployment and maintenance but also critical remote monitoring capabilities that enhance reliability and performance."

For F2OnSite, adding remote monitoring services marks a major milestone, ensuring that customers can proactively manage their data center environments, minimize downtime, and optimize operations.

"With the explosion of data-driven businesses, the ability to provide real-time monitoring and nationwide hands-on support is crucial," said Jonathan Poole CEO at F2OnSite. "This partnership allows us to expand our expertise in data center solutions, reinforcing our position as a leader in IT infrastructure services. We're now better equipped than ever to support organizations that rely on high-availability environments."

UPPER, known for its hands-on approach and deep technical expertise, now gains the ability to offer its specialized solutions across a much broader footprint. F2OnSite's reach allows UPPER to expand their operations exponentially. The joined forces will now allow them to respond faster, support more customers, and bring their expertise to data centers across North America. The result is a win-win for IT teams who need rapid, expert-level support at any location.

Immediate Impact and Future Outlook

This alliance is effective immediately, with both companies actively working to integrate operations and provide streamlined support for clients nationwide. By aligning their strengths, F2OnSite and UPPER are positioned to offer a complete, end-to-end data center service model that delivers faster response times, increased efficiency, and long-term operational stability.
