Snake River Secret: A Mary MacIntosh Novel (Mary MacIntosh Series Book 2)

In this series, Meehan brings readers into the world of Mary MacIntosh, a tenacious attorney whose investigations uncover dark secrets and dangerous conspiracies.

In "Snake River Secret", the second book of the series, Mary and her partner Andrew Harrison must solve the mystery of their legal secretary's sudden disappearance. Their search along the treacherous Snake River reveals a shocking web of betrayal and corruption. The novel captures the tension of a small-town community torn apart by hidden secrets, offering readers a thrilling ride that keeps them on the edge of their seats.

"Powder River Poison", the third novel in the series, sees Mary defending a rancher and his wife whose land has been poisoned by a gas company's negligence. As Mary fights for justice, she grapples with the broader implications of environmental damage, family responsibility, and the often-blurry line between right and wrong. With every page, Meehan skillfully explores complex

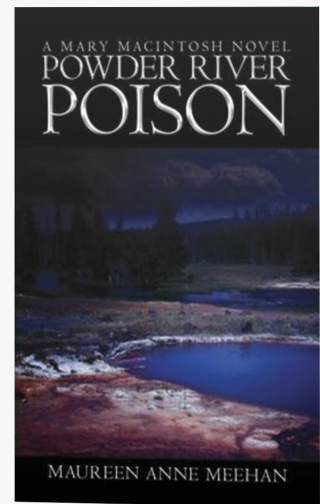

issues, blending legal intrigue with rich character development.

In “Pandemic Predator (Book 4)”, the stakes are raised as Mary is thrust into a global crisis. A deadly strain of avian flu has swept across the world, and the outbreak’s origins point to a small Wyoming town. As the CDC and FBI investigate, Mary uncovers a disturbing connection to a serial killer intentionally infecting women with the virus. As she races against time to stop the killer, Mary must also confront the chilling possibility that the predator may be closer to her than she ever imagined.

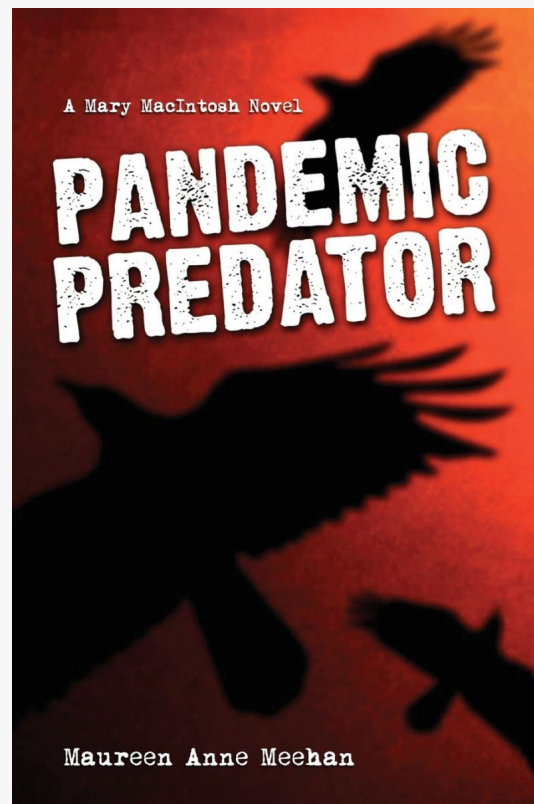

“Poisoned by Proxy (Book 5)” brings a deeply emotional case to the forefront. Mary is called upon to defend parents accused of poisoning their son, Levi, after he becomes mysteriously ill. The investigation uncovers layers of deceit, family trauma, and betrayal, leading Mary into one of the most personal and dangerous cases of her career. As she digs deeper, Mary is forced to confront the darker aspects of human nature and the lengths people will go to protect their secrets.

The series culminates in “The Five (Book 6)”, where Mary MacIntosh’s own life is put in jeopardy. Chandler Craig, a serial killer released from juvenile detention, targets Mary and her college roommates, inviting them to a reunion at her cabin in the Colorado Rockies.

As Chandler takes the women hostage, they must fight for their lives while confronting the secrets of their pasts. The novel weaves a tapestry of betrayal, murder, and deep psychological tension as the characters must unravel the truth behind Chandler’s motives.
