Recognizing that typical retirement strategies tend to fall short for federal employees, Dan Cronin developed the

FERS+ Procedure™ to help provide tailored guidance that combines an in-depth understanding of FERS benefits with professional knowledge of each benefit, their TSP, financial alternatives, tax-efficiency, and insurance strategies. “The goal of the FERS+ Procedure™ is to equip federal employees with the knowledge and tools necessary to help them navigate to-and-through the intricate terrain of their benefits, helping to ensure they achieve financial stability in retirement,” said Dan Cronin.

The FERS+ Procedure™ has four essential pillars: Federal Benefits Optimization, Lifestyle Income planning, Asset Alignment, and Tax Clarity. This comprehensive approach, done with you, not only helps simplify the complexity of federal benefits but also addresses the unique challenges brought about by changing policies, private sector alternatives, and options.

Lifestyle Wealth Management continues to serve federal employees in Hawaii and the U.S. through monthly FERS+ Workshops at Aliamanu Community Center and quarterly full-day

FedImpact Workshops held at the Oahu Veterans Center in Honolulu, consistently attracting full houses. These sessions aim to help demystify federal benefits and financial planning, significantly impacting the audience by providing actionable insights and systematic processes.

As a recognized leader in federal benefits consulting, Lifestyle Wealth Management prioritizes ongoing education. Dan Cronin and his team actively participate in continuous training and annual recertification to stay current on federal employee policy changes. With over 100,000 federal and military personnel living in Hawaii, the FERS+ Procedure™ is a vital resource for those seeking specialized financial guidance.

Looking ahead, Dan Cronin plans to expand outreach efforts within the federal community by offering virtual webinars to make them more accessible. Initiatives include enhanced retirement application evaluation services and support to help ensure a smooth transition into retirement.
