What Is Driving the Growth of the Podcasting Market?

The growing internet penetration is playing a major role in the expansion of the podcasting market. This increase is driven by factors such as better access to mobile devices, the rise of new internet communication platforms, and more. During the COVID-19 pandemic, many people turned to online platforms for communication, entertainment, e-learning, podcasts, and other activities while staying at home due to lockdowns. As internet access continues to grow, the demand for podcasting is rising, as it has become an essential part of online learning and entertainment.
