What is driving the growth of the Mycobax market?

The growth of the Mycobax market is primarily driven by the growing incidence of tuberculosis. Overcrowding, poor sanitation, rising HIV co-infections, and the emergence of multidrug-resistant MDR TB strains contribute to the

increased prevalence of tuberculosis. Mycobax, providing more effective immunity against mycobacterium tuberculosis, particularly in regions with high TB transmission, addresses this growing concern. For instance, the Centers for Disease Control and Prevention reported a substantial increase in tuberculosis cases from 2022 to 2023, amplifying the need for effective treatments like Mycobax.
