“

Our hospitality collection allows our spa and resort customers to offer their guests customized amenities that surpass expectations and have a triple bottom line impact.”

Founder*

Feelgoodz has strategically positioned its hospitality collection as both a hotel waste reducer and a valuable revenue driver within the industry. For example, in an effort to keep disposable slippers out of landfills, Feelgoodz Hospitality offers an alternative: a non-disposable, in-room slide that a guest can purchase and

take home. Spa and resort partners have integrated these eco-luxe products as premium upgrades – enhancing guest experiences while generating additional income.

“Hotels and resorts are looking for thoughtful, sustainable solutions that enhance guest comfort and create memorable experiences,” said Kyle Berner, founder of Feelgoodz. “Our hospitality collection allows our spa and resort customers to offer their guests customized amenities that surpass expectations and have a triple bottom line impact.”

With solutions for spa, retail, pool, fitness, in-room, and special events, Feelgoodz is committed to making sustainable amenities an integral part of the hospitality industry.
