

# Eventdex Launches All-in-One Event Suite: Event Floor Plan Designer, Badge Creator, and Gala Seating Chart Software

*Eventdex Launches Integrated Event Suite: Event Floor Plan Software, Event Badge Creator, and Gala Event Seating Software*

MORGANVILLE, NJ, UNITED STATES, February 5, 2025 /EINPresswire.com/ -- [Eventdex](#) proudly launched its advanced Integrated Event Management Suite, designed to upgrade event planning and improve event experiences with its unified [Event Floor Plan Software](#), Custom Event Badge Printing, and Gala Dinner Seating Management Software.

The graphic features the Eventdex logo at the top left. Below it, the text reads "Eventdex Launches Integrated Event Suite:" followed by a list of three tools: "Floor Plan Designer", "Event Badge Creator", and "Gala Seating Software". The background is dark blue with a grid pattern. On the right, there are three overlapping images: a 3D floor plan, a custom event badge for Carolina Rogers, and a photo of a gala dinner seating chart.

Floor Plan Designer, Badge Creator, and Gala Seating Chart Tools

Eventdex, a trailblazer in event management software, is thrilled to announce the launch of its innovative and fully integrated event planning software, combining three essential tools: Event Floor Plan Software, Custom Event Badge Printing, and [Gala Event Seating Software](#). This all-in-one event management system is designed to streamline event organization, enhance operational efficiency, and elevate the overall attendee experience. From designing event floor plans to managing personalized event badges and optimizing event seating management, this new suite simplifies every aspect of event execution.

The Event Floor Plan Software is a versatile event diagramming tool that empowers event organizers to create detailed, 2D floor plans and event layouts. From mapping out exhibitor booths, networking lounges, to open event seating areas, this event floor plan maker helps maximize venue space while ensuring smooth attendee navigation. Additionally, the interactive seat map software allows exhibitors and sponsors to select and reserve spaces directly, making the venue sourcing and floor plan customization process effortless. By using this event layout software, event planners can improve crowd flow, enhance exhibitor visibility, and provide a better attendee experience.

Complementing this is the Custom Event Badge Printing Software, which takes event badge design to the next level. With Eventdex's event badge printing app, organizers can create custom name badges featuring attendee details, company logos, and QR codes, helping with guest management and event check-in. Be it for conference badge printing, trade shows, or corporate meetings, this event badge management app ensures a polished, professional look while enhancing security and networking opportunities.

This feature revolutionizes Gala event seating management, especially for fundraising events, gala dinners, network receptions, and more where structured seating is essential. Utilizing QR code technology, this event seating chart software allows attendees to scan unique codes via their mobile phones to instantly access their seating assignments. This table plan software eliminates the hassle of manual seat assignments, significantly reduces event check-in times, and ensures a smooth, stress-free experience for guests. Whether it's a high-profile gala or a small corporate dinner, Eventdex's Gala seating chart app helps planners maintain efficiency and precision in seating arrangements. Whether you're planning a high-profile gala dinner, corporate banquet, or exclusive fundraiser, this powerful seating arrangement software ensures seating charts are assigned with precision and ease.

The integration of these three features into a unified platform sets Eventdex event management app stand out as a comprehensive solution for event planning and management. By bringing these capabilities together, Eventdex not only simplifies the event planning process but also empowers organizers to focus on delivering exceptional experiences for their attendees. The platform's streamlined event seating chart software, gala table management system and custom badge printing functionalities reduce logistical headaches. This improves overall operational efficiency, and maximizes revenue opportunities, ensuring that every detail of an event is executed flawlessly.

## About Eventdex

Eventdex is a premier event management platform known for its intuitive interface and feature-rich solutions. Founded in 2016 and headquartered in New Jersey, Eventdex offers a robust event management system designed for in-person, hybrid, and virtual events. Its wide-ranging features include event registration, on-site event badging, event ticketing, lead retrieval apps, B2B event matchmaking, and third-party integrations.
