

PrimeLine Products Enhances Pipe Rehabilitation with Durable BRAWOLINER® Solutions

PrimeLine Products offers the BRAWOLINER® series, delivering advanced solutions for pipe rehabilitation.

ALTAMONTE SPRINGS, FL, UNITED STATES, February 7, 2025 /EINPresswire.com/ -- PrimeLine Products, Inc., a trusted name in the trenchless rehabilitation industry, has introduced the [BRAWOLINER® series](#), setting new standards for efficiency and sustainability in pipe repair. This series includes several innovative products—BRAWOLINER®, BRAWOLINER® 3D, BRAWOLINER® XT, and BRAWOLINER® HT—each tailored for different [pipe rehabilitation](#) needs.

Designed to provide flexibility, durability, and superior performance, these advanced solutions offer a smart alternative to traditional excavation methods, promising to revolutionize the industry.

A Game-Changer in Pipe Rehabilitation

The BRAWOLINER® series, offered by PrimeLine Products Inc., is designed to address a wide range of challenges in pipe rehabilitation. Each product in the series provides a tailored solution for specific needs, making it effective and efficient in various applications. The standard BRAWOLINER® is ideal for repairing defective drains in pipes ranging from 50 to 250 mm (2" to 10") and features a unique loop construction that easily accommodates bends of up to 90° and one-dimensional changes. For pipes requiring dimensional changes, the BRAWOLINER® 3D offers unmatched adaptability. The BRAWOLINER® XT is engineered for pipes under high structural loads, delivering increased stiffness while maintaining flexibility. Additionally, the BRAWOLINER® HT is specifically designed for domestic sewer rehabilitation, supporting warm curing at higher temperatures using water or steam. This versatile series, available through PrimeLine Products

BRAWOLINER®

Inc., delivers advanced, reliable solutions for pipe rehabilitation projects of all types.

Why Choose BRAWOLINER® from PrimeLine Products Inc.

The BRAWOLINER® series, available through PrimeLine Products Inc., is designed with seamless textile construction and exceptional flexibility, making it ideal for repairing even the most complex pipe systems without the need for extensive excavation. This advanced design not only reduces repair costs but also minimizes environmental impact while providing durable, long-term results. To help clients fully benefit from these innovative solutions, PrimeLine Products Inc. offers specialized training on the proper use of BRAWOLINER® products. Additionally, to guarantee availability for all project sizes, a complete inventory of all BRAWOLINER® products is maintained. Backed by over 20 years of expertise from its manufacturer, BRAWO® SYSTEMS, and a strong global presence, PrimeLine Products Inc. delivers these trusted, cutting-edge solutions to meet the diverse needs of the trenchless rehabilitation industry.
