

# Small Business Owners Can Now Get a Free Managed Website Through Redefine Web's Hosting Plans

*Small business owners can now get a free managed website with over 500 templates across 28 industries, and affordable hosting plans from Redefine Web.*

NY, UNITED STATES, February 6, 2025 /EINPresswire.com/ -- In an initiative to support small business growth, [Redefine Web](#) is now offering fully customizable websites at no cost with its affordable hosting plans. This

innovative offering removes the financial barriers to establishing an online presence, allowing business owners to focus on growth while Redefine Web handles the technical complexities with fully managed website solutions.

Over the past two years, Redefine Web has developed its [small business website packages](#) to address cost challenges for startups and small businesses. Understanding the vital role of an online presence in today's market, the company has designed over 500 ready-to-use website templates tailored to 28 industries, including retail, healthcare, corporate, real estate, and professional services. These templates are optimized for user experience and high conversions, helping businesses attract and engage customers more effectively.

The core of Redefine Web's small business offering is its affordable hosting plan, which provides high-speed, reliable service with no website management hassles. Additionally, Redefine Web offers SEO-optimized copywriting, [Google Ads management](#), and comprehensive digital marketing solutions to complement the free website services, driving long-term business success.

"We believe digital marketing should be accessible and adaptable for every business. Our offer goes beyond just providing a free website—we're giving businesses a complete platform for success, without the stress of managing their online presence," said Tim Fux, co-founder of Redefine Web.

Fux shared a success story: "One of our early clients saw a 300% increase in recurring monthly revenue within a year, thanks to their new website and targeted Google Search ads. Our goal at Redefine Web is to help businesses across industries replicate this success and realize their full potential."

"We've seen significant performance improvements after transitioning our clients to our managed hosting platform," added Omor Sarif, CEO of Redefine Web. "Now, we're extending the opportunity to new businesses, offering them free websites and professional email accounts to help them establish a strong online presence."

Following a successful 24-month beta testing phase, Redefine Web reports that clients have experienced an average revenue increase of over 128% within one year, driven by their new websites and targeted digital marketing strategies. Now, these services are available to all businesses looking to strengthen their digital presence.

### Start Your Digital Journey Today
