[Social and Emotional Learning \(SEL\) Market](#) (██████████) (██████ ███ █████)

The global Social and Emotional Learning (SEL) market was valued at approximately USD 4.3 billion in 2024.

Projections indicate significant growth, with the market expected to reach around USD 38.0 billion by 2034, reflecting a compound annual growth rate (CAGR) of approximately 24.3% over the forecast period from 2025 to 2034.

The Social and Emotional Learning (SEL) Market is expanding rapidly as educational institutions recognize the importance of emotional intelligence and social skills in student development. SEL programs aim to foster self-awareness, empathy, and interpersonal skills among students, contributing to better academic performance and mental health. The growing emphasis on holistic education approaches is driving demand for effective SEL curricula and training resources. Additionally, increased funding from government initiatives supports the implementation of SEL programs in schools. This market reflects a significant shift toward prioritizing emotional well-being alongside academic achievement.
