

Lithuanian Project LITAS gets \$20 Million Investment to drive product adoption

Litas.io, a revolutionary payment and crowdfunding company, has secured a \$20 million investment commitment to further develop their technology and business.

NY, UNITED STATES, February 5, 2025 /EINPresswire.com/ -- [LITAS](#): Empowering a New Era of Privacy and Innovation in the Digital Economy

It's been 10 years since Lithuania replaced its national currency, Litas, with the Euro. Now, a passionate team is bringing Litas back as a modern financial tool with a bold vision for the future.

Litas has successfully closed its private sale, securing \$20 million to advance its mission of simplifying investing and expanding opportunities. By addressing key challenges in accessing and managing Real-World Assets (RWA), the project is redefining secure and anonymous payments while revolutionizing the crowdfunding landscape.

“

In 2025 physical locations including a crypto sauna and bar, along with an online crypto casino, will open, accepting Litas as payment to grow the ecosystem and attract more users and businesses.”

Founder Tomas Zubrickas

Through the seamless integration of digital finance with real-world applications, Litas empowers both investors and entrepreneurs to participate in a decentralized ecosystem that prioritizes privacy, accessibility, and innovation.

> The Problem with Real World Assets (RWA)

Investing in Real World Assets (RWA) is often complicated and expensive. Many people can't afford to get started, and legal rules can be hard to follow. This makes it difficult to grow wealth and build a diverse portfolio.
