### By Service, Enterprise Mobility & Telecom Leads, While Asset Management Registers Fastest Growth

The Enterprise Mobility & Telecom segment leads the market and accounted for 27.7% of revenue share in 2023, Due to the growing mobile workforce solutions, remote collaboration tools, and cloud-based communication platforms. Companies are looking to spend on secure mobility management solutions to seamless remote work operations by maintaining employee connectivity and productivity in diverse locations.

Due to the rising demand for real-time IT asset tracking, predictive maintenance, and AI-powered workplace analytics, the Asset Management segment will rise at the fastest CAGR during 2024-2032.

### By Enterprise Type, Large Enterprises Lead While SMEs Grow at the Fastest Rate

The Large Enterprise segment dominated the market and accounted for 60.7% in 2023, major corporations spent heavily on cloud-based workplace solutions, AI-based automation, and digital transformation endeavors. Market growth is also being spurred by enterprises making their workforce more agile, securing their IT and protecting hybrid work styles.

The SME segment is projected to achieve the fastest growth rate between 2024- 2032, driven by the widespread adoption of cost-effective cloud-centric digital workplace solutions among SMEs.

### By End-Use, BFSI Sector Dominates, While Healthcare Registers Fastest Growth

The BFSI sector dominated the market and is expected to witness growth due to the rise in the implementation of AI-enabled financial operations, digital banking transition, and cybersecurity. The industry is also harnessing power of blockchain, cloud computing and AI driven automation to increase the productivity of the employees and deliver an enhanced customer experience.

The healthcare sector is expected to experience the fastest CAGR during the forecast period. Driven by increased adoption of telehealth solutions, patient management systems powered by AI, and workflow optimization tools for remote workforce.
