

pdfFiller by airSlate Introduces Enhanced Reorder PDF Pages Feature for Improved Document Management

The latest feature upgrade in pdfFiller simplifies page reordering with enhanced accessibility directly from the Dashboard.

BOSTON, MA, UNITED STATES, February 6, 2025 /EINPresswire.com/ -- pdfFiller, a leading cloud-based solution for PDF management, has announced [an upgrade to its 'Reorder PDF pages' feature](#). This enhancement allows users to reorder and reorganize

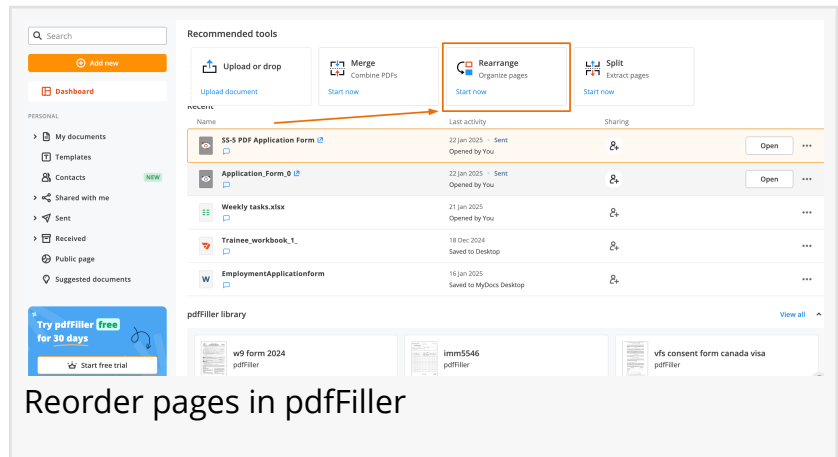

PDF pages not only within the document editor but now also conveniently from the Dashboard. This functionality renovation streamlines workflow, helping users save and optimize their time on document management tasks.

The 'Reorder PDF Pages' feature isn't that new—it's been part of the pdfFiller editor for some time. However, integrating it into the Dashboard makes it more convenient, accessible, and efficient than before. Now, users can access the tool at any stage of their document management process, whether during PDF editing or upon file uploading.

The renovated 'Reorder PDF pages' feature in pdfFiller brings enhanced flexibility and efficiency to document management. Here's what it offers:

- Effortless page rearrangement with drag-and-drop functionality
- Tools to remove, rotate, duplicate, or add new pages as needed
- A well-designed and user-friendly interface that ensures ease of navigation and usability
- Cloud-based opportunities for round-the-clock document accessibility on both desktop and mobile platforms.

The revamped 'Reorder PDF Pages' feature caters to diverse user needs, especially for those who frequently handle extensive documents. Educators, researchers, and writers will find it helpful to organize lengthy paperwork. Students can rearrange jumbled lecture notes, while business professionals can quickly settle proposals, contracts, and presentations to fit the desired order, saving precious time and effort. pdfFiller's enhanced approach to rearranging PDFs ensures a

smoother, more efficient experience for everyone.

Reorganizing pages in a PDF and setting them in a particular order requires only a few steps to complete:

- 1) Log in to pdfFiller account.
- 2) Click on the Rearrange feature at the top of the Dashboard.
- 3) Upload the paperwork that needs reordering.
- 4) Drag and drop pages where they should appear.
- 5) Select a page, click Move to, and enter the necessary number.
- 6) Rotate, duplicate, add, or delete pages.
- 7) Click Apply to save changes, then download or share the file.
