

AqueoUS Vets® Adds Four Channel Partners to its Network of Elite Manufacturers' Representatives

Ensuring state-of-the-art water filtration systems are locally accessible nationwide.

REDDING, CA, UNITED STATES,
February 6, 2025 /EINPresswire.com/ --

[AqueoUS Vets®](#) (AV®) is proud to

announce the addition of four new manufacturers' representatives—EW2 Environmental, Inc., Southern Water Technologies, Environmental Technical Sales, and Haynes Equipment—to its growing Channel Partner program. This expansion grows AV's tier-one representatives to 16, all of whom are committed to safeguarding communities across 39 states. By fostering strong

“

Our continued network growth reflects our commitment to safeguarding public health by ensuring sustainable access to clean water.”

partnerships with water utilities, consultants, and contractors, AV continues to drive innovation and collaboration in delivering effective, sustainable water treatment solutions.

AqueoUS Vets is a leading provider of innovative water treatment systems, addressing both long-standing and emerging contaminants, including PFAS, across the U.S. The addition of these companies expands AV's nationwide footprint into Virginia, South Carolina, North Carolina, Alabama, Georgia, Florida, Louisiana, Mississippi, Arkansas,

Nebraska, Kansas, Iowa and Missouri.

“Our continued network growth reflects our commitment to safeguarding public health by ensuring sustainable access to clean water,” said AqueoUS Vets President & CEO Dr. Mirka Wilderer. “By expanding our Channel Partner program, we are able to collaborate more closely with water utilities, consultants, and contractors across the U.S., providing innovative, cost-effective solutions to address both emerging and long-standing water contamination issues.”

AqueoUS Vets' unique, concept-to-commission approach offers seamless, turnkey solutions for system design, media selection, manufacturing, installation, and ongoing service. This holistic approach, combined with proven and reliable solutions guarantees long-term operational

reliability while delivering the lowest total cost of ownership for water filtration systems.
