

# E-Mobility Rentals Invests in the Norwegian startup Mobility Solutions to Drive Sustainable Urban Mobility

*E-Mobility Rentals, a leading provider of sustainable electric vehicle solutions, announces a strategic investment in Mobility Solutions.*

BUCHAREST, BUCHAREST, ROMANIA, February 6, 2025 /EINPresswire.com/ -- [E-Mobility Rentals](#), a leading provider of sustainable electric vehicle solutions, announces a strategic investment in Mobility Solutions the operator of Kaia Mobility Hotel, Norway's first mobility hotel located in Oslo. This partnership, with project management handled by Kaia, aims to enhance urban mobility, ensure operational stability and facilitate growth into new markets, with Sweden identified as the next expansion following Norway.

Eduard Anghel, CEO E-Mobility Rentals

Kaia Mobility Hotel acts like a centralized hub for urban couriers, offering logistic services such as vehicle purchases, financing, maintenance, worker rest areas, storage and charging facilities. By integrating E-Mobility Rentals' expertise in electric vehicle fleets and battery swapping infrastructure, the collaboration is set to provide eco-friendly transportation solutions for couriers, service workers and last-mile operators in Oslo.

"Our investment in Mobility Solutions and their project, Kaia Mobility Hotel, reflects our commitment to revolutionizing urban mobility by providing efficient and sustainable transportation solutions," said Eduard Anghel, CEO at E-Mobility Rentals. "This partnership not only strengthens our presence in Norway but also sets the stage for our expansion into the rest of the Nordic region, with Sweden being the next, then Finland and Denmark, where we aim to replicate Mobility Solutions successful model to meet the growing demand for green transport

solutions."

The compatibility between E-Mobility Rentals and Kaia Mobility Hotel is evident in their shared vision of reducing urban congestion and emissions through innovative mobility solutions. E-Mobility Rentals' electric vehicle fleets, universal battery and swapping stations complement Kaia's comprehensive service offerings, creating a complete ecosystem that supports the transition from traditional vehicles to electric alternatives.

The partnership will contribute significantly to Oslo's goal of achieving zero emissions by 2030. By providing universal battery swap stations, end-to-end maintenance support and relaxation zones for couriers, the collaboration ensures delivery workers can focus on their job without worrying about charging times or vehicle upkeep.

Kaia Mobility Hotel

Following the successful implementation in Norway, E-Mobility Rentals plans to expand its operations into Sweden, with a focus on establishing similar mobility hubs to cater to the increasing demand for sustainable urban logistics. This strategic move aligns with the company's mission to provide scalable, zero-emission and cost-effective solutions across Europe.

#### About E-Mobility Rentals

E-Mobility Rentals (EMR) is a European pioneering provider of sustainable urban mobility solutions, transforming last-mile delivery and urban logistics across Europe and beyond. With a complete ecosystem that includes a diverse fleet of electric vehicles, universal swappable batteries, solar-powered backed-up battery swap stations and hassle-free maintenance and insurance services, EMR offers businesses and municipalities a seamless, scalable solution to achieve their operational and ESG goals.

Trusted by partners like Glovo, Wolt and Kaufland, EMR enables companies to reduce CO2 emissions by over 90%, cut operational downtime and drive efficiency. By combining innovation with sustainability, EMR is building cleaner, smarter cities, one battery at a time.

#### About Kaia Mobility Hotel

Kaia Mobility Hotel, operated by Mobility Solutions, is Norway's first mobility hotel, and located in Oslo, acting as a single point of contact for bike-based urban logistics in the city center. It offers services including vehicle purchases, financing, maintenance, worker rest areas, storage and charging facilities, aiming to make it easier for couriers, service and maintenance workers and last-mile operators to switch from cars and vans to bikes.
