

ANY.RUN Makes Safebrowsing Free for All Users

DUBAI, DUBAI, UNITED ARAB EMIRATES, February 6, 2025 /EINPresswire.com/ -- [ANY.RUN](#), a leading malware analysis and threat intelligence platform, has upgraded its browser extension. Safebrowsing feature is available for free to all users. This enhancement streamlines threat detection, allowing security teams to analyze suspicious links instantly and safely.

██████████ ██████████ ████████████████ █████ ██████████

Phishing attempts, malicious redirects, and hidden malware can put organizations at risk. ANY.RUN's Safebrowsing feature provides a fully functional, isolated browser, enabling users to interact with threats securely. This is particularly useful for investigating multi-stage phishing attacks and CAPTCHA-based fraud.

With the latest update, security teams can now:

- ██████████ ████████████████████ ████████████████████ - Launch Safebrowsing directly from the right-click menu, eliminating manual link copying.
- ██████████ ██████████ ████████████████████████████████ - Open and assess links in a virtual environment without exposing local systems.
- ██████████ ████████████████████ ████████████████████ - Prevent malware infections and credential theft by checking links before opening them on company devices.
