

Display Panel Market Projected to Garner Significant Revenues By 2032

Display Panel Market Estimated to Flourish By 2032

WILMINGTON, DE, UNITED STATES, February 7, 2025 /EINPresswire.com/ -- A display panel is a component that displays information in the form of text, pictures, video, and others. It acts as a direct interface in human and machine interaction. Display panels are used in a variety of equipment, such as TVs, smartphones, tablets, PCs, and others. Innovations in display technologies are focused on reducing harmful effects on the health of end users. Technological advancements in display panels enhance the viewing experience, consume less electricity, and dissipate less heat.

Growing demand for large-sized OLED panels for television and for public & commercial display panels. However, a decrease in ASP and revenues due to overcapacity obstructs the growth of the market. On the other hand, demand for flexible displays for mobile phones and increasing focus on R&D activities open up new opportunities in the market.

The world [display panel market](#) is segmented based on technology, size, form factor, resolution, applications, and geography. The technology segment is further classified into LED, OLED, and others. Based on size, the market is divided into small, medium, and large. Flat and flexible are form factors discussed in the report. Based on the resolution, the market is classified into 8K, 4K, WQHD, FHD, HD, and others. Applications covered in the report are TV, desktop monitor, notebook PC, tablet, mobile phone, automotive, digital signage, and others. Geographically, the market is divided into North America, Asia-Pacific, Europe, Latin America, Middle East, and Africa (LAMEA).

The prominent companies operating in the market are LG Display Co. Ltd., Samsung Electronics Co. Ltd., Innolux Corporation, AU Optronics Corp., Sharp Corporation, Japan Display Inc., BOE Technology Group Co. Ltd., Panasonic Corporation, HannStar Display Corporation, and Chunghwa Picture Tubes Ltd. The key strategies adopted by these manufacturers to strengthen their position in the market are collaborations, approvals, mergers & acquisitions, partnerships, joint ventures, expansions, and others.
