

Early Sun Games Announces Free Demo Release for Cyberpunk Action Roguelike SINUS

Early Sun Games releases a free demo for SINUS, a cyberpunk action roguelike featuring hacking-based mechanics and millions of weapons.

BRASOV, ROMANIA, February 10, 2025 /EINPresswire.com/ -- Early Sun Games has officially released a free demo for SINUS, a cyberpunk action roguelike, now available as a standalone game on Steam. The demo offers a polished introduction to the game's mechanics, emphasizing hacking-based gameplay, procedural level generation, and skill-based tactical combat.

Set in a cyberpunk world with retro-style graphics, SINUS features the ability to capture and command enemies, take control of turrets, and manipulate in-game systems to gain an advantage. The game includes procedurally generated weapons, an array of game-changing items, and a roster of five playable characters, each with distinct abilities.

"SINUS has been in development for years with a focus on creating a refined and immersive gameplay experience," said George Urse, developer at Early Sun Games.

Key features of the demo include:

Millions of procedurally generated weapons

Unique hacking mechanics

Procedurally generated levels featuring enemies, traps, and hidden paths for high replayability

A selection of playable characters with distinct abilities and traits

Permanent progression through ship console upgrades

Sinus Demo Now Available

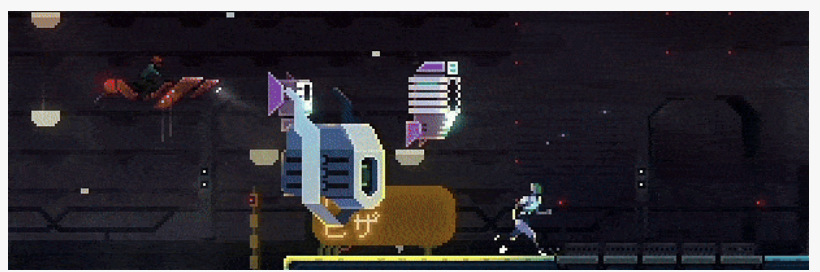

Overpowered build with electricity synergies

Local multiplayer modes including Deathmatch and Team battles

The SINUS demo is now available for free on Steam [HERE](#).

More information, including media assets and updates, can be found in the official [PRESS KIT](#). Community discussions are accessible via [DISCORD](#).

Playable characters with different bot configurations

The demo represents a complete and polished portion of the full game, offering players an opportunity to explore its mechanics and systems.”
