“The cosmetic surgery industry is a very exciting place to be. New technological advances continue to make treatments better and more comfortable for Los Angeles residents,” stated Dr. Ariel Ourian, a double-board certified plastic surgeon. “We have a list of choices for our clients

and there are several types of liposuction procedures to help solve specific problems. Among the exciting innovations is so-called 'awake liposuction,' which is done without general anesthesia.”

Residents in Los Angeles can peruse the new content at <https://www.ourianplasticsurgery.com/procedures/body-procedures/liposuction/> and at <https://awake360la.com/> for 'Awake Liposuction' options.
