

# Ammonia Water Market Size Poised for Takeoff in the Coming Years 2025-2033

*Ammonia Water, also known as ammonia solution or aqueous ammonia, is a solution of ammonium nitrate dissolved in water.*

WILMINGTON, DE, UNITED STATES, February 10, 2025 /EINPresswire.com/ -- Allied Market Research has published a comprehensive report titled, "[Ammonia Water Market](#) By End-use Industry (Agriculture Industry, Rubber Industry, Leather Industry, Pulp and Paper Industry, and Others), By Region

(North America, Europe, Asia-Pacific, and LAMEA): Global Opportunity Analysis and Industry Forecast, 2023-2032." The report highlights that the global ammonia water market, valued at \$28.2 billion in 2022, is projected to reach \$40.5 billion by 2032, growing at a CAGR of 3.8% from 2023 to 2032.

## Market Overview

Ammonia Water, also known as ammonia solution or aqueous ammonia, is a solution of ammonium nitrate dissolved in water. It is widely utilized across multiple industries, including household cleaning, agriculture, and refrigeration. It plays a crucial role in cleaning products such as glass and floor cleaners, as well as in fertilizers, providing essential nitrogen for plant growth. Additionally, it is used as a refrigerant in industrial and commercial cooling systems due to its efficient heat transfer properties and eco-friendliness.

## Key Growth Drivers

- Expanding Applications Across Industries: The increasing use of ammonia water in agriculture, rubber, leather, and pulp & paper industries is a major market driver.

- Rising Demand for Fertilizers: The agriculture sector's dependency on ammonia-based fertilizers continues to fuel market expansion.

- Water Treatment Awareness: Growing environmental concerns and the need for efficient water treatment solutions create lucrative market opportunities.

#### Market Restraints

- Environmental Concerns: The potential impact of ammonia water on ecosystems and strict regulations may limit market growth.

#### Segment Analysis:-

##### Agriculture Industry Dominates Market Share:

- By end-use industry, the agriculture sector accounted for more than two-thirds of the global ammonia water market revenue in 2022. This segment is expected to continue leading, with a projected CAGR of 4.0% from 2023 to 2032. Ammonia water is a key ingredient in producing ammonium-based fertilizers such as ammonium nitrate and ammonium phosphate, which enhance crop yields and soil fertility.

#### Regional Insights:-

##### Asia-Pacific to Lead Market Growth:

Asia-Pacific held the largest market share in 2022, contributing half of the global revenue. This region is expected to maintain dominance, with the highest projected CAGR of 4.0% during the forecast period. The robust horticulture and floriculture sectors in the region drive demand for specialized fertilizers, including ammonia water.

#### Key Market Players:-

The ammonia water market is highly competitive, with major players implementing strategic initiatives such as product innovations, partnerships, and regional expansions. Leading companies include:

- Evoqua Water Technologies LLC

- Veolia

- TORAY INDUSTRIES, INC.

- General Electric
- Koch Separation Solutions
- Aquatech International LLC
- KUBOTA Corporation
- Asahi Kasei Corporation
- WEHRLE-WERK AG
- Mitsubishi Chemical Corporation

## About Us

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

Pawan Kumar, the CEO of Allied Market Research, is leading the organization toward providing high-quality data and insights. We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
