

RH Aero Systems Expands Middle East Operations with New 2,800 sqm Facility in Dubai South

The facility is set to be fully operational in 2025

DUBAI, UNITED ARAB EMIRATES, February 10, 2025 /EINPresswire.com/ -- [RH Aero Systems](#) Expands Middle East Operations with New 2,800 sqm Facility in Dubai South

DUBAI, UAE – February 10, 2025 – RH Aero Systems, a global leader in aviation support equipment and services, is expanding its presence in the Middle East with a new 2,800 sqm facility in Dubai South’s Mohammed Bin Rashid Aerospace Hub (MBRAH). This state-of-the-art location, spanning four units of 700 sqm each, will serve as a central hub for Ground Support Equipment (GSE) and Tooling Services, bringing together the expertise of Rhinestahl and HYDRO Systems under one roof. The facility is set to be fully operational in 2025, reinforcing RH Aero Systems’ ability to support regional airlines, MROs, and OEMs with enhanced efficiency and service capabilities.

“

This expansion marks a significant milestone for RH Aero Systems in the Middle East.”

Christian Hug, Head of Portfolio Management Service at RH Aero Systems

Dubai South, home to Al Maktoum International Airport, is a strategic aviation hub positioned for future growth. RH Aero Systems’ investment is more than just expanding our presence—it’s about becoming an integral part of our customers’ operations, workflows, and maintenance processes. By embedding our expertise directly into their ecosystems, we ensure seamless integration, optimized turnaround times, and localized support that aligns with their specific operational needs. With solutions tailored to enhance efficiency, safety, and reliability, we are committed to strengthening the long-term success of airlines, MROs, and OEMs in the Middle East.

"This expansion marks a significant milestone for RH Aero Systems in the Middle East," said Christian Hug, Head of Portfolio Management Service at RH Aero Systems. "By combining our

HYDRO and Rhinestahl expertise under one roof, we are strengthening our ability to provide premium support to airlines and MROs. The new facility reflects our commitment to delivering top-tier solutions with enhanced speed and efficiency."

A Legacy of Growth in the Region

RH Aero Systems has been a key player in the UAE aviation sector for over 15 years, starting in 2009 at the AIRBUS Warehouse in Dubai. Over time, the company expanded, moving to DAFZA in 2015, and later into a 700 sqm facility in 2019. The new Dubai South facility represents the next stage of growth, offering unmatched capabilities and efficiency for aviation support services. With this move, RH Aero Systems reaffirms its commitment to advancing aviation maintenance, optimizing industry processes, and delivering world-class support solutions.
