Insurtech is the emergence of new technologies engages in transforming the insurance industry, reducing costs for consumers & insurance companies, and enhancing better customer experience. With an implementation of Insurtech, customers can research, compare policies, and make a purchase online without having to physically visit a local agent. Moreover, Insurtech companies have streamlined process of buying all types of insurance with easier & convenient options.

Dynamics of the market:

The global Insurtech market is attributed to the rapid growth and integration of internet technologies, the saturation of the insurance industry, and the increase in the digitalization of business models. Furthermore, the spontaneous growth in the implementation of new technologies and the pioneering potential of developing nations are predicted to create immense growth opportunities for the market players in the estimated period. However, the vital changes in the legal & regulatory framework and privacy & transparency concerns may impede the market's growth.

Leading market players:
Zhongan Insurance
Damco Group
Trov Insurance Solutions, LLC
Majesco
Wipro Limited
DXC Technology Company

Quantemplate
OutSystems
Shift Technology
Oscar Insurance

The service segment to grow at the highest CAGR by 2028

Based on offering, the service segment is projected to rise at a noteworthy CAGR of 33.6% over the estimated timeframe owing to the improved effectiveness of the segment in meeting customers' demand and conducting various insurance processes smoothly. On the other hand, the solution segment held the biggest share in 2020, contributing to nearly three-fourths of the global Insurtech market. This is mainly due to the growing implementation of top-notch solutions by leading insurance companies with unparalleled technological capabilities to scale up business operations.

The on-premise segment showcased the largest share in 2020

Based on deployment model, the on-premise segment generated the maximum market share in terms of revenue in 2020, accounting for about three-fifths of the global insurtech market. This is mainly because the segment provides complete control of the entire infrastructure comprising software as well as hardware. On the contrary, the cloud segment is predicted to manifest the highest CAGR of 34.5% over the analysis period from 2021 to 2030, owing to the increasing investment in cloud technology and the growing need for lessening infrastructure investment.

North America held the dominant market share in 2020

Based on region, the North America region of the global insurtech market held the highest market share in 2020, generating about three-fifths of the market share. This is mainly due to the rapid adoption of insurtech among leading insurance companies and the rise in partnership of insurtech companies with traditional insurers. On the contrary, the Asia-Pacific region is expected to showcase a remarkable CAGR of 36.7% over the estimated period, due to the lower compliance risk exposure, the improvement in the claim settlement process, and the rise in the adoption an investment in insurtech to enhance business efficiency across the region.
