

# Craniopharyngioma Market Statistics Expected to Experience Major Growth by 2032, According to DelveInsight

*DelveInsight's Craniopharyngioma Market report offers an in-depth understanding of the epidemiology and market trends in the 7MM.*

LAS VEGAS, NV, UNITED STATES,  
February 11, 2025 /EINPresswire.com/

--

DelveInsight's "Craniopharyngioma Market Insights, Epidemiology, and Market Forecast-2032" report offers an in-depth understanding of the

Craniopharyngioma, historical and

forecasted epidemiology as well as the Craniopharyngioma market trends in the United States, EU4 (Germany, Spain, Italy, France) the United Kingdom and Japan.

The latest healthcare forecast report provides an in-depth analysis of Craniopharyngioma, offering comprehensive insights into the Craniopharyngioma revenue trends, prevalence, and treatment landscape. The report delves into key Craniopharyngioma statistics, highlighting the current and projected market size, while examining the efficacy and development of emerging Craniopharyngioma therapies. Additionally, we cover the landscape of Craniopharyngioma clinical trials, providing an overview of ongoing and upcoming studies that are poised to shape the future of Craniopharyngioma treatment. This report is an essential resource for understanding the market dynamics and the evolving therapeutic options within the Craniopharyngioma space.

Some of the key facts of the Craniopharyngioma Market Report:

- The Craniopharyngioma market size is anticipated to grow with a significant CAGR during the study period (2019-2032)
- Craniopharyngioma is a rare brain tumor with an incidence of approximately 0.5 to 2 cases per

million people per year across the 7MM (US, EU5, and Japan).

- Estimated prevalence varies, with some studies suggesting 1–3 cases per 100,000 population in the 7MM.
- Craniopharyngioma has a bimodal age distribution, with peaks in children (5–14 years old) and older adults (50–74 years old).
- The disease affects both males and females equally, with no significant gender preference reported.
- In the United States, the incidence is estimated at 1.34 cases per million people annually, with approximately 400 new cases diagnosed each year.
- Across the EU5 countries (Germany, France, Italy, Spain, UK), the estimated incidence is 0.5–2 cases per million per year, with variations in regional diagnosis and reporting.
- The incidence in Japan is reported to be slightly lower, around 0.5–1 cases per million annually, though underreporting may occur.
- Key Craniopharyngioma Companies: Sabine Mueller, MD, PhD, Eva Marie Erfurth, MD, PhD, Zafgen, Inc., Parabilis Medicines, Inc. and others
- Key Craniopharyngioma Therapies: Nivolumab, Oral dabrafenib and trametinib, ZGN-440, FOG-001, and others
- The Craniopharyngioma market is expected to surge due to the disease's increasing prevalence and awareness during the forecast period. Furthermore, launching various multiple-stage Craniopharyngioma pipeline products will significantly revolutionize the Craniopharyngioma market dynamics.

### Craniopharyngioma Overview

Craniopharyngioma is a rare, benign but locally aggressive brain tumor that develops near the pituitary gland and hypothalamus. It arises from embryonic remnants of the Rathke's pouch and can occur at any age but is most common in children and older adults. Despite being noncancerous, craniopharyngiomas can cause significant health issues due to their location, leading to hormonal imbalances, vision problems, headaches, and growth delays. Treatment typically involves surgery, radiation therapy, or targeted therapies to manage tumor growth while preserving neurological and endocrine functions.

### Craniopharyngioma Epidemiology

The epidemiology section provides insights into the historical, current, and forecasted epidemiology trends in the seven major countries (7MM) from 2019 to 2032. It helps to recognize the causes of current and forecasted trends by exploring numerous studies and views of key opinion leaders. The epidemiology section also provides a detailed analysis of the diagnosed patient pool and future trends.

### Craniopharyngioma Epidemiology Segmentation:

The Craniopharyngioma market report proffers epidemiological analysis for the study period 2019–2032 in the 7MM segmented into:

- Total Prevalence of Craniopharyngioma
- Prevalent Cases of Craniopharyngioma by severity
- Gender-specific Prevalence of Craniopharyngioma
- Diagnosed Cases of Episodic and Chronic Craniopharyngioma

### Craniopharyngioma Drugs Uptake and Pipeline Development Activities

The drugs uptake section focuses on the rate of uptake of the potential drugs recently launched in the Craniopharyngioma market or expected to get launched during the study period. The analysis covers Craniopharyngioma market uptake by drugs, patient uptake by therapies, and sales of each drug.

Moreover, the therapeutics assessment section helps understand the drugs with the most rapid uptake and the reasons behind the maximal use of the drugs. Additionally, it compares the drugs based on market share.

The report also covers the Craniopharyngioma Pipeline Development Activities. It provides valuable insights about different therapeutic candidates in various stages and the key companies involved in developing targeted therapeutics. It also analyzes recent developments such as collaborations, acquisitions, mergers, licensing patent details, and other information for emerging therapies.

### Craniopharyngioma Therapies and Key Companies

- Nivolumab: Sabine Mueller, MD, PhD
- Oral dabrafenib and trametinib": Eva Marie Erfurth, MD, PhD
- ZGN-440: Zafgen, Inc.
- FOG-001: Parabilis Medicines, Inc.

### Craniopharyngioma Market Drivers

- Advancements in Treatment Options
- Rising Awareness and Early Diagnosis
- Growing Research & Clinical Trials
- Technological Innovations
- Increasing Healthcare Expenditure
- Patient Support & Advocacy Groups

### Craniopharyngioma Market Barriers

- Limited Treatment Options
- High Treatment Costs
- Risk of Treatment-related Complications
- Low Disease Prevalence

- Regulatory Challenges
- Lack of Awareness in Developing Regions

#### Scope of the Craniopharyngioma Market Report

- Study Period: 2019–2032
- Coverage: 7MM [The United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan]
- Key Craniopharyngioma Companies: Sabine Mueller, MD, PhD, Eva Marie Erfurth, MD, PhD, Zafgen, Inc., Parabilis Medicines, Inc., and others
- Key Craniopharyngioma Therapies: Nivolumab, Oral dabrafenib and trametinib", ZGN-440, FOG-001, and others
- Craniopharyngioma Therapeutic Assessment: Craniopharyngioma current marketed and Craniopharyngioma emerging therapies
- Craniopharyngioma Market Dynamics: Craniopharyngioma market drivers and Craniopharyngioma market barriers
- Competitive Intelligence Analysis: SWOT analysis, PESTLE analysis, Porter's five forces, BCG Matrix, Market entry strategies
- Craniopharyngioma Unmet Needs, KOL's views, Analyst's views, Craniopharyngioma Market Access and Reimbursement

2. Executive Summary for Craniopharyngioma
3. SWOT analysis of Craniopharyngioma
4. Craniopharyngioma Patient Share (%) Overview at a Glance
5. Craniopharyngioma Market Overview at a Glance
6. Craniopharyngioma Disease Background and Overview
7. Craniopharyngioma Epidemiology and Patient Population
8. Country-Specific Patient Population of Craniopharyngioma
9. Craniopharyngioma Current Treatment and Medical Practices
10. Craniopharyngioma Unmet Needs
11. Craniopharyngioma Emerging Therapies
12. Craniopharyngioma Market Outlook
13. Country-Wise Craniopharyngioma Market Analysis (2019–2032)
14. Craniopharyngioma Market Access and Reimbursement of Therapies
15. Craniopharyngioma Market Drivers
16. Craniopharyngioma Market Barriers
17. Craniopharyngioma Appendix
18. Craniopharyngioma Report Methodology
