

QFlow Systems Achieves SOC 2 Type 2 Compliance, Strengthening Data Security Commitment

QFlow Systems earns SOC 2 Type 2 compliance, reinforcing its commitment to security, compliance, and protecting customer data.

ST. LOUIS, MO, UNITED STATES, February 17, 2025 /EINPresswire.com/ -- [QFlow Systems](#), a leader in enterprise workflow automation and records management solutions, proudly announces its [SOC 2 Type 2](#) compliance attestation. This achievement demonstrates QFlow's unwavering commitment to data security, privacy, and risk management.

Conducted by Prescient Assurance LLC, this independent attestation verifies that QFlow Systems' controls were designed and operated effectively throughout the evaluation period. The attestation ensures compliance with the AICPA's Trust Service Criteria for Security, reinforcing QFlow's dedication to protecting client data and maintaining the highest level of operational integrity and security.

“

This investment in security controls, verified by a third-party auditor, demonstrates our commitment to providing constantly monitored systems.”

Tim Koehler, CEO of QFlow Systems

"Achieving SOC 2 Type 2 compliance is a significant milestone for QFlow Systems," said Tim Koehler, CEO of QFlow Systems. "New threats and security risks emerge every day. This provides a level of assurance to our

customers who trust we are taking the appropriate measures to mitigate these threats by methodically securing access to systems and data."

SOC 2 Type 2 is an internationally recognized security framework that assesses an organization's information security controls over an extended period. It confirms that QFlow's security

practices, policies, and procedures are effectively designed and consistently followed.

QFlow Systems continues to innovate with a security-first mindset, ensuring compliance and risk management remain at the forefront of its solutions. CJ Millican, Head of Compliance of QFlow Systems says, "We're focused on further strengthening the controls and routines around security and adopting more controls for CMMC Level 2. We're working to automate where we can to keep these efforts streamlined with regular reviews."
