

NordVPN's Threat Protection Pro Achieves Certification from AV-Comparatives for Protection Against Fake Online Shops

INNSBRUCK, TIROL, AUSTRIA, February 12, 2025 /EINPresswire.com/ -- [AV-Comparatives](#), a globally recognized independent authority in cybersecurity testing, is pleased to announce that [Threat Protection Pro](#)[™] has been awarded certification for its exceptional ability to detect and block fraudulent online shops. This certification highlights [NordVPN's](#) commitment to providing advanced security solutions that protect consumers from the increasing threat of fake e-commerce websites.

In the November 2024 Fake-Shops Detection Test, AV-Comparatives evaluated 37 cybersecurity solutions to assess their effectiveness in identifying and preventing access to fraudulent online shops. Threat Protection Pro[™] showed significant improvement from previous evaluations, achieving a detection rate of 71-80%. This performance places Threat Protection Pro[™] among the top security solutions in this category.

The rise of fake online shops presents a growing danger to consumers, leading to financial fraud and data theft. These deceptive sites are designed to closely resemble legitimate e-commerce platforms, making them increasingly difficult to spot. AV-Comparatives' rigorous testing process evaluates security solutions against a wide variety of fraudulent websites to measure their effectiveness in real-world conditions.

"The surge in fake online shops highlights the urgent need for robust security solutions capable of detecting and blocking fraudulent sites before they cause harm," said Andreas Clementi, CEO and Founder of AV-Comparatives. "Threat Protection Pro[™] has made impressive progress in this

area, earning certification for its effectiveness in protecting users from online shopping scams."

Threat Protection Pro™ certification reflects its dedication to enhancing online safety for users. By successfully detecting and blocking access to fraudulent shops, Threat Protection Pro™ helps prevent consumers from falling victim to scams that could compromise their personal and financial information.

AV-Comparatives applauds NordVPN's Threat Protection Pro™ for its commitment to cybersecurity excellence and its proactive approach to tackling emerging online threats. Consumers are encouraged to use certified security solutions like NordVPN's Threat Protection Pro™ to stay protected against the evolving risks of cybercrime.

About NordVPN

NordVPN's Threat Protection Pro™ is one of the top solutions for protecting against scams, phishing attacks, and other cybersecurity threats, including fake shops. It scans your downloads for malware, removes harmful files, and improves your browsing experience by blocking annoying ads and trackers that collect your personal information.

Threat Protection Pro™ has made impressive progress in this area, earning certification for its effectiveness in protecting users from online shopping scams."

Andreas Clementi, CEO and Founder of AV-Comparatives

A significant advantage of Threat Protection Pro™ is its advanced anti-phishing capabilities. By using smart AI and an extensive database, the tool helps prevent you from visiting dangerous or fraudulent websites, including new and sophisticated threats that other tools might miss.
