The convenience check cash advance segment is expected to grow faster throughout the forecast period.

Based on the type of cash advance, the convenience check cash advance segment is projected to manifest the highest CAGR from 2024 to 2033. Due to its flexibility, lower fees compared to ATM cash advances, and targeted promotions by credit card companies. It is also a convenient option for high-value transactions where credit cards may not be accepted.

The fintech-issued cards segment is expected to grow faster throughout the forecast period. Based on the card issuer, the fintech-issued cards segment is projected to manifest the highest CAGR from 2024 to 2033, owing to increase the adoption of innovative features, wider accessibility, lower fees, a mobile-first approach, and the rapid adoption of digital banking solutions.

The business segment is expected to grow faster throughout the forecast period. Based on the credit card type, the business segment is projected to manifest the highest CAGR from 2024 to 2033. as more businesses utilize cash advances to manage their short-term financing needs.

Asia-Pacific to maintain its dominance by 2033.

Based on region, Asia-Pacific held the highest market share in terms of revenue in 2023, accounting for three-fourths of the global credit card cash advance market revenue and is expected to rule the roost in terms of revenue throughout the forecast timeframe. The rapid economic growth and urbanization, leading to increased consumer spending and business activities. As the region's economies continue to expand, the demand for credit card cash advances rises, driven by both consumer and business needs for quick and accessible financing options.
