

Global Physiotherapy Equipment Market to Surge, Projected to Reach USD 38,134.8 Million by 2033 at a 6.5% CAGR | FMI

The global physiotherapy equipment market has surged on the back of increasing incidences of musculoskeletal conditions.

NEWARK, DE, UNITED STATES, February 14, 2025 /EINPresswire.com/ -- The [global physiotherapy equipment market](#) is on a trajectory of remarkable growth, with market value anticipated to soar from USD 20,367.16 million in 2023 to an impressive USD 38,134.8 million by 2033, marking a robust compound annual growth rate (CAGR) of 6.5% over the next decade.

Physiotherapy remains a cornerstone of physical well-being, playing a vital role in recovery from injuries, managing chronic conditions, and enhancing overall quality of life. This growing reliance on physiotherapy is fueling demand for advanced equipment that enables healthcare professionals to deliver more effective and precise treatments.
