

Outdoor Power Equipment Market Predicted to Reach US\$ 96.63 Billion Representing a CAGR of 5.9% From 2025 to 2034

Progression in cordless and battery-fueled technologies is driving the market demand.

NEW YORK CITY, NY, UNITED STATES, February 14, 2025 /EINPresswire.com/ -- Our outdoor power equipment market report has been prepared using advanced methodologies and research techniques to help businesses make strategic business decisions.

The instruments involve lawnmowers, chainsaws, blowers, trimmers, and snow blowers, gratifying domestic and commercial sectors"

Polaris Market Research

Outdoor power equipment market is projected to reach US\$ 96.63 billion by 2034, representing a CAGR of 5.9% from 2025 to 2034. The market is driven by the progression in cordless and battery-fueled technologies, which is increasing the demand for outdoor power equipment. The market is also driven by the growing awareness of green solutions and the inclination towards electric and hybrid tools, which is pushing the outdoor power equipment market demand.

Outdoor power equipment market:

The outdoor power equipment industry is developing swiftly. As administrative bodies position robust restrictions on evaporative discharges, and consumers look for spirited and more ravishingly pleasing commodities, makers are striving to encounter these contemporary provocations.

Outdoor power equipment market:

For ground-reinforced outdoor power equipment, the sizeable challenge is reducing emissions. Lawnmowers, golf cars, groomers, and utility and all-terrain vehicles require noncontaminated fuel tanks. Growing consciousness of green solutions and the inclination towards electric and hybrid tools is pushing the outdoor power equipment market demand.

□□□□□□□□□□□□□□□□□□□□:

Escalating Infrastructure Development: The growing infrastructure advancement, which includes extensive construction projects and augmentation of public spaces such as parks, highways, and entertainment areas, entails the usage of robust and productive equipment such as lawnmowers, trimmers, blowers, and chainsaws, boosting the demand for outdoor power equipment market growth.

Growing Urbanization: The growing urbanization is placing the market on a path of upward trajectory. As per the data issued by the UN, 55% of the global population resides in urban areas and is anticipated to surge to 68% by 2050.

Technological Progressions: Makers of outdoor power equipment are embracing elements such as battery-fueled systems, smart regulators, and weightless outlines that attract consumers. Improved presentation, decreased noise levels, and prolonged run times allure experts and homeowners looking for dependable equipment for several outdoor chores.

Outdoor Power Equipment Market

[market/request-for-discount-pricing?utm_source=EIN&utm_medium=EIN&utm_campaign=EIN&utm_id=01](https://www.polarismarketresearch.com/industry-analysis/outdoor-power-equipment-market/request-for-discount-pricing?utm_source=EIN&utm_medium=EIN&utm_campaign=EIN&utm_id=01)

□□□□□□□□ □□□□□□□□:

- The outdoor power equipment market segmentation is based on product, power source, application, and region.
- By product analysis, the lawn mowers segment held the largest market share. This is due to the growing demand for autonomous and robotic mowers in domestic and commercial spaces.
- By application analysis, the residential segment is poised to register a significant CAGR. This is due to homeowner's ongoing funding to sustain their gardens and outdoor spaces.

□□□□□□□□ □□□□□□□□:

The research report covers all the major regions and sub-regions of the outdoor power equipment market. The study provides market insights into North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa.

North America: North America accounted for the largest market share. This is primarily because of elevated disposable income and a robust culture of gardening.

Asia Pacific: Asia Pacific is anticipated to witness the fastest CAGR from 2025 to 2034. The region's speedy urbanization and surging disposable incomes fuel the regional market expansion.

□□□□:

Which region held the largest share of the outdoor power equipment market?

North America held the largest share of the global market in 2024.

Which segment based on product dominated the outdoor power equipment market in 2024?

The lawnmower segment dominated the market in 2024.

What is the regional scope of the market?

The market covers regions such as North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa.

What is the forecast period of the market?

The forecast period of the market is 2025-2034.

Polymers Market: The global polymers market is projected to reach a value of \$96.63 billion by 2034, growing at a CAGR of 5.9% from 2025 to 2034.

Polymers Market Research Report & Polymers Market Research Report:

Polaris Market Research is a global market research and consulting company. The company specializes in providing exceptional market intelligence and in-depth business research services for PMR's clientele spread across different enterprises. We at Polaris are obliged to serve PMR's diverse customer base present across the industries of healthcare, technology, semiconductors, and chemicals among various other industries present around the world. We strive to provide PMR's customers with updated information on innovative technologies, high-growth markets, emerging business environments, and the latest business-centric applications, thereby helping them always to make informed decisions and leverage new opportunities. Adept with a highly competent, experienced, and extremely qualified team of experts comprising SMEs, analysts, and consultants, we at Polaris endeavor to deliver value-added business solutions to PMR's customers.
