Prime Determinants of Growth

The rising demand for processed food & beverages, increasing preference for natural additives & ingredients in bakery & functional foods, and the significant growth in the food industry are the factors expected to drive the growth of the global yeast ingredients market in the forecast period from 2023 to 2032. However, the potential for allergic reactions and the scarcity of raw materials may restrict market growth in the coming future. On the contrary, the growing awareness among consumers about the nutritional supplements value of yeast extracts and diversification of applications in pharmaceuticals & animal feed are expected to offer remunerative opportunities for the expansion of the yeast ingredients market during the forecast period.

The yeast extracts sub-segment accounted for the largest global yeast ingredients market share of 28.5% in 2022 and is expected to hold major market share by 2032. This dominance is mainly due to the vital role of yeast extracts as a primary ingredient in the bakery & brewing industries. Besides, its increased utilization in biofuel manufacturing and probiotics has significantly

contributed to the sub-segment's growth. Moreover, the rising preference for nutritional foods worldwide is anticipated to further boost the demand for yeast extracts.

Application: Food and Beverages Sub-segment to be the Most Dominant During the Forecast Period

The food and beverages sub-segment held the largest market share of 34.7% in 2022 and is expected to rise at the highest CAGR of 10.2% during the forecast period. This dominance is majorly owing to the essential role of yeast ingredients in brewing and breadmaking in the food & beverage industry. Besides, the consumer shift towards natural ingredients in food is resulting in the rising demand for yeast ingredients. Moreover, the growing demand for processed foods & beverages, especially in the developing countries, is expected to fortify the growth of the sub-segment in the coming future.

Region: Europe Market to Hold Major Share by 2032

The yeast ingredients market in the Europe region accounted for the largest share of 41.3% in 2022 and is predicted to continue to maintain its dominance during the forecast period. This growth is mainly owing to the increasing demand for natural & healthier natural food options from consumers in the region. Besides, the rising trend towards healthier and lighter food choices is demanding manufacturers to modify their processes, which is predicted to further boost the demand for yeast ingredients.
