

# A Deep Dive into Saudi Arabia Construction Chemicals Market 2025: Key Drivers, Growth Factors, and Projections 2023-2032

*Saudi Arabia Construction Chemicals Market is anticipated to generate \$2.7 billion by 2032 | with CAGR 5.9%*

PORTLAND, OR, UNITED STATES, February 17, 2025 /EINPresswire.com/ -- As per the report published by Allied Market Research, the [Saudi Arabia construction chemicals market](#) was pegged at \$741.1 million by 2019, and is projected to reach \$1.09 billion by 2027, growing at a CAGR of 6.9% from 2020 to 2027.

Saudi Arabia Construction Chemicals Market

Increase in demand from the infrastructure and construction industry and rise in demand for green buildings have boosted the growth of the Saudi Arabia construction chemicals market. However, lack of awareness regarding concrete surface retarders hampers the market growth. On the contrary, surge in construction activities in the region is expected to open lucrative opportunities for the market players in the future.

“

Construction chemicals are commonly used in both residential and commercial construction projects. The concrete system is protected from atmospheric corrosion.”

Construction chemicals, also known as specialty construction chemicals or construction chemical products, are substances and compounds specifically designed and formulated to enhance performance, durability, and overall quality of construction materials and structures.

These chemicals play a crucial role in the construction industry by providing various benefits such as improving the strength of concrete, protecting against corrosion, enhancing adhesion,

and increasing the lifespan of buildings and infrastructure. Construction chemicals are commonly used in both residential and commercial construction projects.

The Saudi Arabia construction chemicals market is divided on the basis of product and application. Based on product, the market is categorized into concrete admixture, waterproofing and roofing chemicals, protective coatings, adhesive and sealants, industrial flooring, asphalt additives, repair and rehabilitation, and others. The waterproofing and roofing chemicals segment is expected to manifest the highest CAGR of 7.5% during the forecast period. However, the concrete admixture segment held the lion's share in 2019, accounting for around one-fourth of the market.
