another successful year of passing the System and Organizational Controls (SOC) 2 Type 2 examination. This examination emphasizes controls related to security, availability, and confidentiality in background screening services. This achievement further reinforces Data Facts' enduring commitment to excellence in compliance throughout their remarkable 36-year history.

Developed by the American Institute of Certified Public Accountants (AICPA), the SOC 2 Type 2 examination is a type of cybersecurity audit that provides regular,

independent attestation of the controls that a company has implemented to mitigate information-related risk.

Since their founding in 1989, Data Facts has consistently prioritized robust data security practices for their clients, who rely on the company for reliable background screening services.

"Obtaining a SOC 2 Report not only provides us with a competitive edge but also underscores the paramount importance of safeguarding all personally identifiable information," states Johnna Leeds, Sr. Vice President of Compliance at Data Facts. "Our unwavering dedication to data protection is embedded in our business practices, benefiting both our clients and vendors. We ensure that the data entrusted to us remains secure. The validation provided by the SOC 2 report further solidifies our commitment to delivering exceptional service, maintaining accountability, and upholding the highest ethical and operational standards."

Data Facts enlisted 360 Advanced, Inc., a licensed CPA firm, to perform the third-party SOC examination.
