Mosayeb (Moe) Karimi

Advanced Wound Care Now More Accessible Than Ever
Chronic and acute wounds can severely impact an individual's quality of life, and OWC Center is addressing this challenge with its state-of-the-art facility and expert wound care specialists. The center specializes in treating diabetic foot ulcers, vascular wounds, pressure injuries, and complex [chronic wounds](#), utilizing innovative therapies like negative pressure wound therapy, wound debridement, and advanced dressings.

Personalized Treatment Plans with Proven Results

OWC Center's patient-first approach ensures that every treatment plan is customized based on medical history, lifestyle, and wound severity. The multidisciplinary team collaborates closely with primary care providers, endocrinologists, and home health professionals to create seamless, comprehensive care solutions that promote faster healing and prevent complications.

“We are committed to providing exceptional wound care to the Louisville community, ensuring that every patient receives the highest level of attention and expertise,” said Mosayeb (Moe)

Karimi, Clinical Director of OWC Center. "Our team leverages the latest medical advancements to enhance healing, reduce hospitalizations, and improve overall patient outcomes."

Innovative Techniques and a Commitment to Healing

OWC Center's mission is to bridge the gap in accessible, high-quality wound care by offering a full spectrum of treatments, including:

- Diabetic Foot Ulcer Management – Preventing complications through specialized dressings and offloading techniques.
- Vascular Ulcer Treatment – Enhancing circulation and promoting healing with compression therapy.
- Pressure Injury Therapy – Utilizing cutting-edge technology to treat and prevent pressure sores effectively.
- Comprehensive Outpatient Services – Allowing patients to receive expert care without extended hospital stays.

By integrating advanced medical technology with a compassionate approach, OWC Center is helping patients reclaim their health and quality of life.
