

ICON Technologies Offers Premium Polycarbonate Window Replacements for Vintage RVs

Manitoba-based manufacturer launches comprehensive line of replacement windows to help RV owners preserve and restore cherished vintage vehicles.

WINKLER, MANITOBA, CANADA,
February 20, 2025 /EINPresswire.com/

-- [ICON Technologies](#), a leading manufacturer of thermoformed solutions, offers [polycarbonate window replacements](#) designed specifically for vintage RV restoration. The product line includes specialized window components with a particular focus on Airstream and Boler models.

"Our window replacement solutions address a critical need in the RV restoration community," says John Loewen, President and CEO of ICON Technologies. "We understand the importance of maintaining the original character of vintage RVs while ensuring durability and functionality for today's travelers."

ICON Technologies specializes in crafting polycarbonate RV window replacements designed to match specific brands and models. The collection includes components such as the Airstream Wing Window Garnish, Boler Window with Locking Gasket, and various Airstream polycarbonate windows ranging in size and price. Each product is meticulously engineered to ensure precise fit and performance, making restoration projects hassle-free. Customers are encouraged to measure their existing windows carefully to guarantee a perfect match.

The product range includes various window styles and sizes, from Vista View windows to awning components. Each window component is manufactured to precise specifications, ensuring proper fit and seamless integration with existing RV structures.

Devon Broome, a recent customer, shares his experience: "Every time I've ordered something from this company the experience has been so painless. Their sales reps via texting or calling in are so convenient and are very knowledgeable and helpful about the products they have available for you."

The company's commitment to quality is reflected in their comprehensive warranty program,

which covers defects in material and workmanship under normal usage for one year from the date of sale. "Thanks and great job!" adds Steve Bean, another satisfied customer. "My representative Ryan was speedy, experienced, and well spoken. The price was even lower when he found an in-stock item compared to getting it custom."

ICON Technologies maintains stringent quality control measures through their Quality Management System, ensuring each component meets precise specifications. Customer Tom Bumstead notes, "Jon was very knowledgeable and helpful. Responded very quickly to my text questions. Very happy with the level of service I received."

The company serves RV owners throughout North America from their manufacturing facility in Winkler, Manitoba, offering support through multiple channels, including phone, text, chat, and email.

In addition to its commitment to product quality and customer satisfaction, ICON Technologies offers a comprehensive product warranty, covering defects in material and workmanship under normal usage and service for one year from the date of sale. The company also provides a convenient refund and exchange policy, accepting refund requests within 30 days of purchase for items in new condition, free of damages or modifications.
