

Hot-Melt Adhesives Market Will Surpass US\$ 12.59 Billion at 3.1% CAGR Growth From 2025 to 2034

Hot-Melt Adhesives Market Will Surpass US\$ 12.59 Billion at 3.1% CAGR Growth From 2025 to 2034

NEW YORK CITY, NY, UNITED STATES, February 20, 2025 /EINPresswire.com/ -- Our hot-melt adhesives market report has been prepared using advanced methodologies and research techniques to help businesses make strategic business decisions.

Global hot-melt adhesives market is projected to reach US\$ 12.59 billion by 2034, growing at a CAGR of 3.1% from 2025. The market is driven by the increasing demand for bonding solutions in various industries, including automotive, construction, and packaging. The market is expected to be dominated by the Asia-Pacific region, which is projected to account for approximately 45% of the total market revenue. The market is also expected to be dominated by the automotive industry, which is projected to account for approximately 35% of the total market revenue. The market is also expected to be dominated by the construction industry, which is projected to account for approximately 15% of the total market revenue. The market is also expected to be dominated by the packaging industry, which is projected to account for approximately 5% of the total market revenue.

The image shows the cover of a market research report titled "Hot-Melt Adhesives Market" by Polaris Market Research. The cover features a photograph of various hot-melt adhesive products, including a large yellow block, a smaller yellow block, and a white block, all resting on a bed of white granules. The Polaris Market Research logo is in the top left corner. At the bottom of the image, there is a black box with white text that reads "US\$ 12.59 BN Revenue Forecast in 2034". Below the image, the text "Hot-Melt Adhesives Market" is written in a simple font.

Key highlights of the report include:

Hot-melt adhesives offer swift, robust, and adaptable bonding solutions. Melting at excessive temperatures and congealing upon cooling, these adhesives are ideal for an assortment of applications covering several substances. They are solvent-liberated, user-friendly, and pledge longevity.

As the squandering of heat establishes hot-melt adhesives, the temperature to which they are administered is crucial. It must be sufficiently liquid to dampen the substrates and be sufficiently hot for assembly prior to cooling. The usage of these substrates in several applications, such as

The growing sales of consumer electronics are pushing the hot-melt adhesives market ahead”
Polaris Market Research

fixing constituents, gathering electronic housing, and offering dampness and vibration proof, is pushing the demand for hot-melt adhesives.

Growing Construction Activities: Growing construction ventures are pushing the market. The demand for adaptable and productive bonding solutions escalates,

covering several construction applications is boosting the demand for hot-melt adhesives market growth.

Escalation In Industry Requirements: Firms are initiating progressive adhesive solutions to encounter developing industry requirements and applications by advancing contemporary expressions with improved attributes such as enhanced bonding power, superior thermal aversion, and decreased ecological influence.

Strategic Ventures By Manufacturers: Makers are engaging in tactical ventures to improve product offerings and augment market penetration. They are funding research and development to invent adhesive expressions and collaborating with other firms to widen their product portfolios and approach contemporary markets.

Understanding key players and their initiatives provides valuable insights into the competitive landscape and emerging opportunities in the market. Here are the top companies in the market:

- 3M
- Arkema
- Ashland
- Avery Dennison Corporation
- Dow
- Exxon Mobil Corporation
- H.B. Fuller Company
- Henkel AG & Co. KGaA
- Jowat SE
- Sika AG

Market Segmentation: The hot-melt adhesives market segmentation is based on type, application, and region.

- The hot-melt adhesives market segmentation is based on type, application, and region.

- By type analysis, the ethylene vinyl acetate (EVA) segment held the largest market share in 2024. This is due to its versatile attributes and a broad gamut of applications in paper, woodworking, automotive, and packaging industries.
- By application analysis, the packaging solutions segment held the largest market revenue share in 2024. This is due to worldwide growth in the packaging industry and growing demand for several kinds of packaging covering numerous sectors.

□□□□□□□□ □□□□□□□□:

The research report covers all the major regions and sub-regions of the hot-melt adhesives market. The study provides market insights into North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa.

North America: North America accounted for the largest market share. This is primarily because of the augmentation of production plants by critical market contenders, which has improved the region's manufacturing potential and supply chain efficacy.

Asia Pacific: Asia Pacific is anticipated to register a significant CAGR from 2025 to 2034. The region's automotive industries are in nations such as China, India, and Japan.

□□□□:

Which region held the largest hot-melt adhesives market share in 2024?

North America had the largest share of the global market in 2024.

What is the forecast period of the hot-melt adhesives market report?

The forecast period of the market is 2025 to 2034.

Based on type, which segment dominated the global market in 2024?

The ethylene vinyl acetate (EVA) segment dominated the market in 2024.

What is the regional scope of the market?

The market covers regions such as North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa.

Polaris Market Research is a global market research and consulting company. The company specializes in providing exceptional market intelligence and in-depth business research services for PMR's clientele spread across different enterprises. We at Polaris are obliged to serve PMR's diverse customer base present across the industries of healthcare, technology, semiconductors, and chemicals among various other industries present around the world. We strive to provide PMR's customers with updated information on innovative technologies, high-growth markets, emerging business environments, and the latest business-centric applications, thereby helping them always to make informed decisions and leverage new opportunities. Adept with a highly competent, experienced, and extremely qualified team of experts comprising SMEs, analysts, and consultants, we at Polaris endeavor to deliver value-added business solutions to PMR's customers.
