

PointFire 365 v3.2 Update Brings New Features and Key Enhancements

PointFire, the pioneer in multilingual SharePoint solutions has released its latest update for PointFire 365, a multilingual tool for SharePoint Online.

OTTAWA, ONTARIO, CANADA, February 20, 2025 /EINPresswire.com/ -- [PointFire 365 v3.2](#) is now available! This update brings new features, performance improvements, and key fixes, further enhancing SharePoint's [multilingual capabilities](#).

PointFire 365 was once seen as an alternative to SharePoint native multilingual pages. Now PointFire supports it as one of 3 models, with full multilingual features."

Martin Laplante, CEO of IceFire Studios, makers of PointFire products

This release is optional but production-ready and continues the transition towards PointFire 365 Modern, aligning with Microsoft's roadmap for phasing out the classic add-in model by April 2026.

Key Updates in v3.2

-Improved User Experience: All PointFire 365 screens now appear as side panels for easier access.

- Simplified Installation: New installs require only the "PointFire 365 Modern" app. The add-in is no longer required.

- Full support for SharePoint native multilingual page mode: You can use native mode page redirection, and still have full benefit of PointFire 365's other features

- Improved single-page and multi-page modes: Simpler multilingual settings, with improved safeguards when changing modes.
