

# Microgrid Market Present Scenario and Growth Prospects 2020 - 2030

*Microgrid Market Expected to Reach \$59.74 Billion by 2030*

WILMINGTON, DE, UNITED STATES, February 20, 2025 /EINPresswire.com/ -- The global [microgrid market](#) share is expected to witness considerable growth, owing to an increase in demand for Internet of Things solutions, especially in Asia-Pacific and LAMEA, due to the rising demand for digital infrastructure solutions in these regions. Allied Market Research, titled, "Microgrid Market by Connectivity, Type, and End Use: Global Opportunity Analysis and Industry Forecast, 2021–2030," the microgrid market size was valued at \$15.88 billion in 2020, and is projected to reach \$59.74 billion by 2030, growing at a CAGR of 14.9% from 2021 to 2030.

“

The market growth is supplemented by proactive industrialization efforts and a surge in manufacturing output, owing to technological advancements.”

Increase in demand in remote areas and backup for military bases and stringent government initiatives to reduce carbon footprints. However, high installation and maintenance costs hinder market growth. Growth in demand for smart microgrid solutions in commercial and industrial sectors for reliable and uninterrupted power and electricity supply is expected to be opportunistic for the

According to microgrid market analysis, the end-user segment is divided into commercial & industrial, government, healthcare, remote, utility, and others. The commercial and industrial sector is expected to be the fastest-growing segment registering a CAGR of 17.1% during the forecast period. However, the remote segment is the highest revenue contributor accounting for \$3.90 billion in 2020.

By region, the [microgrid market trends](#) are analyzed across North America, Europe, Asia-Pacific, and LAMEA. Asia-Pacific was the highest revenue contributor that was valued at \$65.44 billion in 2020. This region is further expected to attain a market value of \$27.85 billion by 2030 to grow at a CAGR of 16.4%.

Key findings of the report include:

- In 2020, the AC Microgrids segment accounted for maximum revenue and is projected to grow at a notable CAGR of 15.6% during the forecast period.
- The remote and other segments together accounted for around 45.4% of the microgrid market share in 2020.
- The AC microgrids segment of the microgrid industry is projected to grow at a CAGR of 15.6% during the forecast period.
- North America contributed to the major share in the microgrid market trends.

The key players profiled in the report include ABB, General Electric, Siemens, Eaton Corporation, Honeywell, Schneider Electric, S&C Electric, Spirae Inc., Exelon Corporation, and Pareto Energy. Market players have adopted various strategies, such as product launch, collaboration & partnership, joint venture, and acquisition, to expand their foothold in the microgrid industry.
