## About National Cancer Survivors Day®

National Cancer Survivors Day® is a poignant, inspiring Celebration of Life led by the National Cancer Survivors Day Foundation. It is also a call to action for further research, more resources, and increased public awareness to improve the lives of cancer survivors.

Held annually on the first Sunday in June, NCSD sees thousands gather across the globe to honor cancer survivors and to show the world that life after a cancer diagnosis can be beautiful, meaningful, and triumphant. This day gives people living with a history of cancer an opportunity

to connect with each other, celebrate milestones, and share their personal stories of facing cancer. What began as a small grassroots survivorship movement in 1987 is now one of the largest cancer survivor celebrations in the world.

It is also a day to draw attention to the ongoing challenges cancer survivors face. As the number of cancer survivors continues to increase, it's becoming ever more important that we address the long-term effects of cancer survivorship. Because cancer survivors deserve the best possible quality of life possible after facing this life-threatening disease.
