## Why Now?

The internet is cluttered with platforms that prioritize engagement over well-being, leading to outrage, polarization, and online harm. Families seeking a safe, private, and ad-free space

currently have few options. Family Link fills this gap, offering a peaceful alternative where family members can share, celebrate, and preserve their history without distractions or privacy concerns.

### A Legacy of Innovation

Family Link is the latest offering from Immortal Inc., a company dedicated to preserving legacies through technology. Founded by digital entrepreneur and developer, Louis Frank, Immortal Inc. has been creating digital legacy tools since 2017, including Archive.Life, ArchiveOne, and Remortal.

“Family Link is the culmination of years of work aimed at preserving the legacy of our loved ones. First, we built ArchiveOne to focus on individual legacies. Then, Remortal brought those legacies to life in new ways. Now, Family Link expands that vision to entire families, offering a space where every generation can come together and celebrate their history. While others have built platforms around maximum engagement and impersonal adoration, we built Family Link on strengthening the bonds with those that you have always loved.”

### Join Family Link Today

Family Link is now live and available for families across the United States. Signing up is free and easy, with no hidden fees or subscriptions.
