"This is my second time visiting RVA Physical Therapy. 1st time Piriformis syndrome and this time IT band syndrome. The staff is friendly, efficient and thorough in explaining the condition and treatment. I would highly recommend."

"I've run ultramarathons on top of riding my bicycle to the four corners of the country. Movement is everything to me. In the past, when I was injured I was able to figure it out myself and recoup. But this year dealt me an injury I could not shake. I couldn't run for two months. That's hundreds miles of running for me just gone. I came to Dr. Ramky very vulnerable and truthfully despondent. He diagnosed me in minutes. What I thought was relentless shin splints or a tendonitis overuse injury was actually sciatica and resulting nerve issues going down my leg. Under his treatment, within one week I was back to running. After three weeks, I graduated from his care and am now back full strength. I highly recommend his expertise and recovery plans to anyone."
