Solution Center Manager*

[Materials Austin](#), a leading nationwide distributor of plastics and composite materials, now offers custom fabrication, routing, and cut-to-size services to help Texas businesses meet their unique operational requirements. These services transform custom customer designs into specialized parts and components, remove the need for costly in-house fabrication, reduce production downtime, and maintain consistent quality across all projects. Routing provides precise material shaping and profiling for many industrial applications, ensuring consistent accuracy and clean edges. This service is crucial for aerospace, manufacturing, and oil and gas industries, where precision

matters. With Interstate Advanced Materials Austin's routing services, companies can streamline production, minimize material waste, and improve equipment performance.

Interstate Advanced Materials Austin's cut-to-size service provides businesses with materials prepared to exact dimensions, eliminating the need for additional on-site processing. This ensures that businesses receive materials that meet their specifications, saving time and reducing labor costs. By delivering only what's needed, businesses can eliminate large inventory requirements, saving space and lowering overhead expenses.

With decades of industry expertise, Interstate Advanced Materials Austin goes beyond materials distribution by offering dedicated project support. Their specialists collaborate with customers to interpret technical requirements, recommend materials, and create solutions that enhance performance, durability, and cost-effectiveness. Interstate Advanced Materials Austin ensures that Texas businesses receive tailored solutions that keep them ahead of the competition by prioritizing communication throughout each project.

“Our custom fabrication, routing, and cut-to-size services are designed to provide tailored

solutions that meet the unique challenges of our customers,” said Wade Benkendorfer, Austin Solution Center Manager. “We take pride in delivering precision, quality, and efficiency to help businesses in Texas grow.”

Interstate Advanced Materials continues to offer cutting-edge material solutions, [wholesale pricing plans](#), and efficient shipping options, empowering businesses to achieve their operational goals.

For more information about custom fabrication, routing, and cut-to-size services, contact Interstate Advanced Materials Austin at (512) 846-9599 or toll-free at (800) 742-3444. Visit the location at 3714 Bluestein Dr. #790, Austin, TX 78721.

Interstate Advanced Materials Austin provides tailored solutions to Texas businesses through custom fabrication, routing, and cut-to-size services, eliminating the need for in-house fabrication, reducing production downtime, and ensuring consistent project quality.

Interstate Advanced Materials is a full-line distributor of high-performance sheet, rod, tube, plate, and bar, and proudly serves many diverse industries, including OEM, semiconductor, food processing, POP display, government, agriculture, automotive, and many others. With 10 locations nationwide and an online sales and support team, Interstate Advanced Materials provides full sheets and pallets, cut-to-size service, complex CNC, welding solutions, and full machining capabilities.

Interstate Advanced Materials is known for selling high-quality products, providing excellent customer service, and providing superior technical support. Excellence in all facets of the customer experience has been the cornerstone of Interstate Advanced Materials for over 40 years.
