Autonomous operation without any human intervention, low maintenance costs, and reliability of <u>robotic pool cleaner</u> drive the growth of the global robotic pool cleaner market. Moreover, high expenditure on leisure activities including swimming and trips led to increase in the demand for robotic pool cleaners in residential and commercial applications. This is owing to its easy installation and minimal maintenance costs, which presents new opportunities in the upcoming years.

• On the other hand, increase in e-commerce sales led to have a positive impact on the growth of the market.

The report offers detailed segmentation of the global robotic pool cleaner market based on type, end user, distribution channel, and region.

Based on end user, the residential segment held the highest market share in 2021, holding more than one-third of the total market share, and is expected to continue its leadership status during the forecast period. However, the hotels segment is estimated to register the highest CAGR of 14.5% from 2022 to 2031.

Based on distribution channel, the specialty electronics stores segment held the largest market share in 2021, holding nearly one-third of the total market share, and is expected to continue its leadership status during the forecast period. However, the e-commerce segment is projected to register the highest CAGR of 14.8% from 2022 to 2031.

Based on region, North America contributed to the highest share in terms of revenue in 2021, holding around two-fifths of the total market share, and is estimated to continue its dominant share by 2031. However, Asia-Pacific is projected to manifest the fastest CAGR of 14.7% during the forecast period.

Leading players of the global robotic pool cleaner market analyzed in the research include Aquatron Robotic Technology

Hangzhou Gaoyue Technology Co. Ltd

iRobot Corporation

KOKIDO

Mariner 3S AG

Maytronics

Milagrow HumanTech

Pentair

Polaris

Zodiac Pool Systems
